Rushville, Indiana, Friday Evening, November 22, 1918

TWELVE PAGES TODAY

UNITED WAR WORK DRIVE STILL LAGS

Cash and Pledges Officially Reported up to Today Amount to Only \$15,494.69

URGENT APPEAL FOR HELP

Those in Charge of Campaign Issue Call to People to Help Redeem County's Record

Word has come to the managers of the United War Work campaign that many people have not been canvassed. Those who have not been seen by a solicitor are urgently requested to take their pledges or contributions to Will E. Inlow, county chairman, or Charles G. Newkirk, treasurer, at the Rushville National bank.

Actual reports received by Will E. Inlow, county chairman for the United War Work campaign, show that \$15,494.69 has been pledged and partially paid since the drive began a week ago last Monday.

It is unofficially known that there are several thousand dollars in pledges and cash which have not been reported, but it is a safe guess that the county is not anywhere near its quota of \$40,000 which it was expected to raise by last Monday evening.

The United War Work campaign has been the slowest of any drive for funds for patriotic purposes, which has been conducted here during the more than nineteen months the United States has been engaged in the conflict with Germany. It has lagged from the very first and all efforts to give impetus to the movement have failed.

The reason can scarcely be explained, except for the general disposition among the people to relax since they believe that the war is over. It is pointed out, however, that is not a feasible reason because other counties in the state, which are no more patriotic than Rush, subscribed their quotas the first few days of the campaign, some of them meeting their allotment the very first day. In some cases a 150-percent subscription has been registered. Rush county has always met every request for funds during the war and without exception has over-subscribed. Because of the county's past record, those who are in close touch with the present campaign hope that the people will come to a realization of the light in which the county now stands and help redeem it.

Part of the trouble lies with the captains and their assistants who have not canvassed their territory. Some of them have never solicited a single person and have reported to the chairman that they did not intend to do so. In Rushville township alone there are fifteen districts from which there have been no reports from the captains. In a few rare cases the solicitors have canvassed their territory, but no general solicitation has been made in any of the fifteen districts.

Anderson township, which has a war chest, is the only township in the county which has officially reached its quota of \$4,000. Walker and Posey townships are reported to be near their goals, but no reports whatever have been forthcoming from Noble, Washington, Ripley or Jackson townships.

Rushville township has officially reported pledges and cash contributions amounting to \$7,807.10, which is a little more than half of its quota of \$13,000. None of the following townships have reached their quotas, according to reports, available, but they have reported the following sums:

Richland, \$577.00; Orange \$1, Continued on Page Four

WILHELM HAS THE "FLU"

Former Kaiser is Ill, According to a Report From Amsterdam

(By United Press.) Amsterdam, Nov. 22.—The former kaiser is understood to be ill with influenza. He is believed to be constantly in communication with Germany. It is reported that a wireless station has been erected on top of the castle and that German airplanes frequently fly over the estate, dropping messages.

Two hundred bags of gold and silver German coins, each weighing 100 pounds, have arrived in Holland for the former kaiser, it was reported here today.

NAVY WILL BE TWICE AS LARGE AS IN 1914

Admiral Taylor Tells House Naval Committee it Will Contain 700 Vessels by 1920

U-BOAT CHASERS TO BE SOLD

(By United Press.) Washington, Nov. 22.—In July, 1920 the American navy will have more than twice the number of ships it had before the outbreak of the war, Admiral Taylor, chief of the naval construction, told the house naval committee today.

The fleet now includes about 250 wooden submarine chasers, which the government expects to sell to other governments or put out of commission.

"Destroyers represent the backbone of the increase," Taylor said. "There are now 100 of these in commission and many more will be built in the next eighteen months, making this country's destroyer force nearly equal to that of Great Britain."

One new dreadnaught, the Idaho, will be commissioned in about a month. Two more, the Tennessee and California, are approaching completion, and an additional two will be done before the summer of 1920.

The strength of the navy in 1915, Admiral Taylor said, was about 300 ships. By July, 1920, he estimated the number would be something over 700 vessels.

NINETEEN NEW CASES OF INFLUENZA HERE

Report For 24-Hour Period Ending at Noon Largest Since Ban Was Lifted 3 Weeks Ago

TWO MORE SCHOOL CHILDREN

Nineteen new cases of the Spanish influenza were reported in Rush county during the twenty-four hour period ending at noon today. This is the largest number of cases which have been reported in this county since the ban was lifted about three weeks ago.

Ten of the cases are outside of Rushville, four from Milroy, one near Lewisville and five in the Martin family southwest of the city where there is already a patient suffering with the smallpox. The nineteen reported today bring the total since the malady became epidemic to 918.

Two of the nine new cases in Rushville were school children. This makes six children who have been reported yesterday afternoon were Mr. and Mrs. Frank Abercrombie and son Manly, 1224 North Main street, and Mrs. Dora Abercrombie, 204 East Ninth street. This morning's reports were Irene Abernathy, 227 East Second street; Mrs. Bert Madden and daughter Helen, East Fourth street, and Marie and Ruby Sterrett of West Third street. The disease has appeared in the last named family previous to this time.

TWO WELLS WILL SUPPLY THE CITY

Council Penetrates New Shed Containing Better Grade of Water Than That Now Used

NO IRON OR MAGNESIA IN IT

Wells Under Test Pump 650 Gallons a Minute—To be Attached to Mains Next Spring

The Rushville city council has two water wells on A. L. Stewart's farm less than a mile southwest of the city, which under tests have shown a capacity of 650 gallons a minute, more than enough to supply all the patrons of the Rushville water plant.

Photographs were taken yesterday of these two wells, showing them in action. One throws a four inch stream and the other a five inch stream. Most of the day yesterday was spent in pumping the stone and other material out of the wells, preparatory to capping them for the winter. A small vent will be left in each well to prevent freezing, as water flows from them continually.

The new wells will not be attached to the city water system until next spring when deep well pumps will be installed and a line will be run to the nearest city mains. The pumps will be run by electricity and wires will have to be strung to the new wells to provide current from the local plant.

Both are eight inch wells and the one which throws a five inch stream is 92 feet deep and pumps 350 gallons a minute. The one which throws a four inch stream is 93 feet deep and pumps 300 gallons a minute.

A twelve inch well will be drilled in the same vicinity next spring because the city council believes that it has struck an oasis in that vicinity, after having attempted for several years to locate some good wells closer to Rushville. In going farther from the city the council penetrated a new water shed which gives promise of providing a suitable supply of water for Rushville for many years to come.

The character of the water from the new wells makes it plain that they are drawn from a different vein than that from which the present water supply comes. The water is very clear and contains no iron or magnesia, such as does the water which is now being used and which has greatly damaged the water mains and fittings and leaves a sediment that is very injurious to everything with which it comes in contact. The water is not so hard as that now being used and has a much better taste, indicating it comes from limestone.

The city council and other city officers estimate that these two wells alone will save Rushville many thousands of dollars a year, not only because of the smaller expense entailed but because the water will not be as damaging to the mains; also for the additional reason that the city has been at a heavy expense pumping the wells from which the present supply is being drawn, because all of the wells are about exhausted.

Two other wells have been drilled in the same vicinity as the ones which give such an abundant supply of water but one of them was a failure and tests on the other one have not yet proven whether it will be of any value.

O. A. Fora of Knightstown was the contractor, who drilled the wells.

TO PROTEST TO DUTCH

Paris, Nov. 22.—The allied governments have decided to send an official protest to the Dutch government against the violation of Holland's neutrality as a result of her permitting German troops to cross the province of Limburg in their retreat from Belgium, according to the Echo de Paris.

SURROUNDED BY 200 ALLIED CRAFT

Seventy German Warships Lie in the Firth of Forth After Complete Surrender Yesterday

DELIVERED AT 9:10 THURSDAY

American Army of Occupation Continues Advance, Receiving Reception From Luxemburg

(By United Press.) Aboard the United States Steamship Arkansas, Nov. 22.—Seventy German warships lie in the Firth of Forth, surrounded by more than 200 allied battlecraft, which are prepared to guard them until peace is signed.

Germans command and man the vessels. At 9:10 Thursday morning, German naval officials delivered this powerful fleet to the allies, which were represented by the British navy, five American dreadnaughts and three French warships.

As seen from the Arkansas, this spectacle was most dramatic. First there appeared the British observation balloon towed by the British cruiser Cardiff which went to escort the Germans to the rendezvous. A few seconds later appeared a low black shape which gradually took the form of a battle cruiser. This was the Seydlitz.

Shortly after another appeared—the Moltke. Then came the Hindenburg, the Derflinger and the Von der Tann in single file.

The Germans found themselves passing between two lines of warships, six miles apart. Each line was fifteen miles long. The line of German ships was only slightly less.

The allied fleet was divided into squadrons, according to the class of the ships. As the German corresponding squadron came alongside, the allied warships counter-marched and escorted them to the Firth of Forth.

This brought the Arkansas broadside the Hindenburg, her particular charge.

While the Arkansas was turning the Friedrich der Grosse, leading the battleship squadron, came in sight. She was followed by the Kaiser, the Kaiserine and the Konig Albert.

Then came the Bayern, the Groser Kurfurst and the Kron Prinz. Next was the Karlsruhe, leading the cruisers. They were trailed by fifty destroyers.

Americans in Luxemburg

With the Americans Advancing Toward the Rhine, Nov. 22.—The American army of occupation passed through the city of Luxemburg, capital of the grand duchy of that name, Thursday afternoon.

Great crowds, hailing the Americans as deliverers, escorted the doughboys through the streets, which were decked with allied flags.

Belgians in Louvain

Havre, Nov. 22.—The Belgian army has passed through Louvain, the city which was utterly destroyed by the Germans early in the war, it was announced by the Belgian war office today.

Albert Enters Brussels

Brussels, Nov. 22.—King Albert of Belgium entered his capital today amid a great celebration. The queen and their three children were present.

ARLINGTON WINS GAME

Carthage was unable to penetrate Arlington's defense at Carthage. Wednesday night and lost a hard fought game, nine to two. Veatch, Arlington's star floor guard, led the scoring with three field goals, while Silver, the winners' sturdy back guard, repeatedly smashed the losers' offense. In the curtain raiser, the Arlington seconds overwhelmed the Carthage seconds, 16 to 1.

FIRST SNOW IS PROMISED

Freezing Temperature Also Forecast For Tonight by Weather Man

The first snow of the season, together with freezing temperature, is promised for tonight by the weather man.

A few flakes of snow fell this morning, but there was scarcely enough to approach the dignity of a snowfall. The mercury got dangerously near freezing last night, but towards morning began to rise. The temperature was around forty today, indicating that colder weather may be expected by tonight.

WOMAN IS BURNED TO DEATH NEAR WALDRON

Death of Mrs. William Powell, Age 61, Yesterday Unexplained—Body Found by Husband

BUILDING WAS NOT FIRED

Shelbyville, Ind., Nov. 22.—Mrs. William Powell, age sixty, who lived one mile east of Waldron, was burned to death Thursday afternoon at her home. The manner has, as yet, been unexplained.

The body was found on the floor of a summer kitchen, burned to a crisp. The discovery was made by her husband and her sister, Mrs. Anna Buell, who lived at the Powell home. They had been away from the house.

A fire was burning in a gas stove in the room where the body was found, but all of the lids and doors of the stove were in place. The building had not been fired.

In addition to the husband and Mrs. Buell, one brother and three other sisters survive.

PART OF S. A. T. C. IS TO BE DISSOLVED

Men Not Fully Inducted at Indiana University Are Relieved of Their Obligations

ORDER EFFECTIVE NOV. 11

Bloomington, Ind., Nov. 22.—Men students at Indiana university here, who have not been fully inducted into the student army training corps have been relieved of all obligation toward the government and have received permission to withdraw from the organization.

The ruling, which came from the war department at Washington, is to the effect that unless fully inducted by 10 o'clock on the morning of November 11 all students whose papers had not been filled out would thereby be classed as civilians.

With the exception of a few men to care for quarters 50 per cent of the student soldiers will receive a furlough from December 21 until December 26 to celebrate Christmas. The other 50 per cent will have passes from December 25 until December 29.

GAME IS CANCELLED

The Rushville high school received word this morning that the medical examiner of the Knightstown high school would not permit the basketball team to come here and play tonight. For that reason the game has been cancelled.

LAFOLLETTE WHITEWASHED

(By United Press.)

Washington, Nov. 22.—The senate elections committee today voted to recommend that no further action be taken on the resolution for investigation of the speech made by Senator Robert LaFollette, Wisconsin, at St. Paul a year ago.

DRAFT RECORDS WILL BE SEALED

Local Board Ordered Today to Preserve All Data in Connection With Selective Service

NOT SUBJECT TO PUBLIC GAZE

Last Statistical Report to be Made December 10, When Cases Containing Records Will be Sealed

The records covering the operations of the selective draft law in Rush county will become a matter of history, not subject to the gaze of anyone, after December 10, for on that date all records are to be sealed by the chairman of the local board and kept intact subject to further orders from the governor or provost marshal general.

Lengthy instructions were received today from the provost marshal general, providing that the statistical report covering the operations of the draft up to September 11, 1918 shall be submitted as of November 30 and that a similar report dealing with the operations of the draft after the last registration, shall be completed not later than December 10, after which the records shall be sealed.

The Privates Vernace Burrows and Francis Coyne, who are assistants to the local board, completed the first report today and immediately began work on the second report.

Today's instructions provide that no more cases shall be sent to the district board either on appeal or occupation claims and that classification by the local board of such cases not forwarded shall be entered in the records as finally classified. The local board is also ordered not to classify and registrant whose questionnaire is received after December 9.

"All papers and documents received by the local boards after the records are so sealed", say the instructions, "shall be first clearly all plainly endorsed or stamped with the date of receipt, and then placed in a separate file and held until further orders from the governor or provost marshal general."

"Local boards are further directed as follows: Until further direction or additions of any sort or kind or description shall be made in records of registrants of the registration of June 5, 1917 and of June 5 and August 24, 1918, save under conditions and instructions to be hereafter given by this office. Records of the registrants of September 12 registration belonging to the 19 to 36 and 18-years age groups shall be made up and continued until their classification work is complete but only and solely in accordance with the normal procedure, after which no more entries, alterations or additions shall be made therein save under conditions and instruction to be hereafter given by this office. Under no circumstances whatever shall local board withdraw or permit anyone to withdraw any papers whatever or in the board files or hereafter placed in such files."

"After the receipt of this order no access shall be given to records of local boards on the part of any person whatsoever not a board member or a member of the clerical force specifically authorized thereto by the board and no information concerning them shall be given out except upon the written instructions of the governor or of the provost marshal general's office. The obligation of the board to keep these records intact and unaltered is clear from my recent special instructions on this matter. The provisions of paragraphs two and three hereof are of urgent importance and are imperative."

"A scrupulous observance of the foregoing rules is essential in order to preserve the integrity of the records."

Do Not Get Careless With Your Blood Supply

Impurities Invite Disease.

You should pay particular heed to any indication that your blood supply is becoming sluggish, or that there is a lessening in its strong and vital force.

By keeping your blood purified, your system more easily wards off disease that is ever present, waiting to attack wherever there is an open-

ing. A few bottles of S. S. S., the great vegetable blood medicine, will revitalize your blood and give you new strength and a healthy, vigorous vitality. Everyone needs it just now to keep the system in perfect condition. Go to your drug store and get a bottle to-day, and if you need any medical advice, you can obtain it without cost by writing to Medical Director, Swift Specific Co., 25 Swift Laboratory, Atlanta, Ga.

FOR ARMENIAN RELIEF FUND

Collection at Thanksgiving Service Will be Devoted to This Cause

The collection at the annual Thanksgiving services next Thursday will be devoted to the Armenian-Syrian relief. The county has contributed at various times to this worthy cause, but has never given what it was felt should be raised here.

The annual union services will be held in the evening at 7:30 o'clock, this year, instead of in the morning, as has been the custom in the past. The Rev. C. J. Bunnell of the First Baptist church will preach and the meeting will take place at the Main Street Christian church.

ARE FINED FOR PROFANITY

Happy Bever and Stanley Stewart Plead Guilty in Court.

Happy Bever of New Salem and Stanley Stewart were each fined \$1 and costs in the circuit court yesterday when they pleaded guilty to an affidavit charging profanity. Bever gave replevin bail for a stay of judgment. Both men were arrested several weeks ago.

The case of the state against William Garrigus of Crawfordsville, formerly C. I. & W. freight agent here, who is accused of embezzlement, was continued on the motion of the defendant.

MESSAGE TO KING ALBERT

President Sends Congratulations on His Entrance to Brussels

(By United Press.) Washington, Nov. 22.—Congratulations upon King Albert's return to Brussels were sent by President Wilson today as follows: "At the moment that you re-enter Brussels at the head of your victorious army, may I not express the great joy that it gives to me and to the American people to hail your return to your capital, marking your final triumph in this war which has cost your nation so much suffering, but from which it will arise in new strength to a higher standing."

MANIFESTO TO THE PEOPLE

Lloyd-George and Law's Announce Points For a Lasting Peace

(By United Press.) London, Nov. 22.—Premier Lloyd-George and Chancellor Bonar Law have issued a manifesto on the coming election, favoring as the chief points of a lasting peace: reduction of armaments; pensions for soldiers; colonial preference in trade; reform in the house of lords; sex equality and renewed effort to settle the Irish question.

INCREASE IN TODAY'S LIST OF CASUALTIES

War Department Lists 14 Killed in Action and 13 Prisoners Out of 1514 Men

RUSHVILLE BOY IS DEAD

Washington, Nov. 22.—One thousand, five hundred and fourteen names were listed in today's casualties from the War department, of which there are 14 killed in action; 395 wounded (degree undetermined); 378 wounded slightly; 88 died of wounds; 11 died of accident and other causes; 1 died of airplane accident; 105 died of diseases; 87 wounded severely; 13 prisoners.

The Commanding General of the American armies reported that there are eighteen Hoosiers in the casualties for today as follows:

Died of wounds—Private James Joseph Shanahan, Rushville.

Died of disease—Private George E. Nelson, Tell City.

Wounded severely—Corp. Wagoner Harshal E. Ward, New Lisbon; Private Clarence E. Baxley, Corydon; Private Russell B. Davis, Ramsey; Private Karl O. Schmid, Indianapolis; Private Orben Moon, Michigan City.

Wounded slightly—Private Frank R. Huntington, Greenberg; Private James Gorton, Terre Haute; Lieut. Dewitt E. Mullett, Columbia City; Corp. Oscar Leigh Rollyson, Union City; Private Dale Bibler, Peru.

Missing in action—Private Robert R. Knox, Petersburg.

Killed in action—Lieut. Harry H. Marsh, Burnetts Creek.

Wounded, degree undetermined—Private Frank J. Gill, Indianapolis; Private Delbert Earl Moore, Martinsville; Private Frank Ricci, Mar-

ian; Private Thomas Moore, Mount Vernon.

The official report that James Shannahan, whose name is given in the above list, was dead of wounds received in action October 16, was received here by his father, James Shannahan, Sr., last Friday.

TO CLOSE SUNDAY EVENING

Last of Lecture Series at Catholic Church to be Given Tonight

The Mission services that have been held in the progress through the week at the St. Mary's Catholic church will come to a close on Sunday evening. The last regular lecture of the series will be given tonight, as there will be no services on Saturday night.

The forceful eloquence of the Rev. M. J. Ripple, who is conducting the services has made a deep impression on the members of the congregation as well as the many others, who have been in attendance. Last night a congregation which filled every seat in the church heard a masterful exposition of the doctrine of the sacrifice of the mass. The subject of this evening's lecture is "Charity."

J. C. RYAN RESIGNS

Washington, Nov. 22.—John C. Ryan, second assistant secretary of war and director of the air service, has sent his resignation to Secretary of War Baker, effective as convenient.

TO KEEP HANDS OFF

Washington, Nov. 22.—That the war department will keep hands off in the matter of universal military training unless asked specifically for its version, was the opinion in general staff quarters today.

Mid-Season Clearance

Friday, November 22nd to Saturday, November 30th

There's no dodging facts—we've been hit by the unseasonable weather which prevailed during the entire Fall season to say nothing of the influenza epidemic. Our various departments—particularly the section devoted to women's apparel are still crowded with merchandise which has not been moving on account of the unusually warm weather. We've full twice as much Fall and Winter merchandise on hands as we should have. We must get out from under, we must sell this merchandise at once, or else we must face the necessity of carrying it over into another season—a thing never done here. In order to get out from under we have sacrificed profits with reckless prodigality. Clearance is what we want, and clearance is what we will have regardless of the losses involved.

Silk Lingerie

A splendid showing of flesh color Silk Lingerie as practical as they are lovely. As a gift offering or for personal use one could not choose more happily.

Subscribers to the Daily Republican whose papers are cut off may know that they are in arrears on their subscriptions because a ruling of the pulp and paper section of the war industries board provides for not sending newspapers after the date of expiration of subscription unless the subscription is renewed and paid for.

No Place for German-made Goods

That the arrival in New York of 10,000,000 pounds of toys, every piece said to bear the words "Made in Germany," may possibly set a precedent for a flood of German goods to be sent into this country from neutral countries on the plea that they are no longer owned by citizens of Germany, is the contention of Richard M. Hurd, chairman of the Boycott Committee of the American Defense Society. In a statement made public at the national

Sap and Salt

By BERT MOSES

When taking castor oil, take enough.

Many men who talk truth do not tell it.

A gentleman is a man who never claims to be one.

With coal at its present price, think of the fuel bill in hell!

To be able to tell a big thing from a little thing is the distinguishing mark of greatness.

It is difficult to determine whether women's dresses are intended to conceal or reveal their figures.

I know of no waste quite so conspicuous as that exhibited by a pretty woman when she kisses a small boy.

headquarters of the society, he says:

This huge shipment of toys bearing the abominated words "Made in Germany," arrived in New York on Wednesday on board the steamship Nieuw Amsterdam, of the Holland-American Line, which made the voyage from Rotterdam under guarantee of safety by the German Government. It is reported that the Government officials at Washington admitted this importation on the ground that the toys were bought and paid for before the United States declared war on the Huns, and have been in storage in Holland for the past two years.

It is my sincere hope that this will not set a precedent for a flood of German goods to be sent into this country from neutral countries on the plea that they are no longer owned by citizens of Germany and, hence, that the money paid for them does not directly help Germany. The indirect help to Germany is entirely obvious in that if the United States absorbs German products now held by neutrals, they will leave a vacuum in neutral countries into which Germany can dump her products immediately after the end of the war, or even today. This is one of Germany's strategic moves in her war for economic world domination, the plans for which have gone, on steadily, despite her unfavorable military situation.

Shall American babies handle toys made by the baby-killers of Germany? Americans should never forget that the present war is only a part of Germany's plan to dominate the world commercially, and that even if she fails to gain territorial enlargements, she has won the war if she emerges from it in a stronger economic position. All Germany's actions in the war have taken the commercial factor into consideration; the destruction of Allied and neutral merchant ships is aimed to leave Germany, after the war, the water carrier of the world; in Belgium and Northern France, the removal of machinery, the destruction of factory buildings and the deportation of trained factory operatives is aimed to remove industrial competition.

After the war Germany, filled with stolen machinery, with her own buildings and lands untouched, with raw materials already ordered from all parts of the world, would soon be in a position to supply the world with cheap German goods while the Allied countries are rebuilding their industrial plants and transportation facilities.

Could anything be more repulsive than to put into the hands of American children toys made by the German hands which drip with the blood of countless innocent non-combatants. It is the legal individual right of every American citizen to make such careful inquiry as shall prevent their consciously purchasing these toys, if they be minded so to do.

Pot and Kettle.

Excellent is the motive which animates the periodical agitations against the morals of the members of our fighting forces. There is a hardy tradition that soldiers and sailors are licentious, and neither novelists, poets nor dramatists would have it otherwise.

Since Virgil sang the sack of Troy the epic and the romance have always depicted victorious soldiers as ravishers, lechers and libertines. War stories would lose half their

pep and punch if these elegant characteristics were removed from the legonaries that people the pages. And more of us get our ideas from story-books than from compiled statistics.

Statistics, however, have recently shown that disease resulting from immorality is not as prevalent in the army as among men in civil life. It will, therefore, be more logical to start worrying about the morals of the soldiers now that the armistice has been signed and the armies disbanded. The members will then be scattered among dissolute civilians like ourselves, and will learn all our bad habits.

Or they might—and quite justifiably—decline to associate with vicious reprobates like us until we promised to reform.

Nothing is more necessary to the effectiveness of our forces than the maintenance of high standards, and the authorities, aided by the Y. M. C. A. and other worthy institutions are devoting ceaseless vigilance to this essential. It is therefore incumbent upon those of us who are not with the colors to keep our own house clean, and to avoid the scandal of standing disgraced by comparison with those whom we would presume to edify by pontifical attitudes and apostolic posturing.

It is reported that President Wilson will sail on the Agamenon, formerly the Kaiser Wilhelm II, of the North German line, when he leaves for the peace conference, and that he and Mrs. Wilson will occupy the imperial suite, once used by the former kaiser when cruising on that vessel. If the president were the least bit superstitious, he would steer clear of that imperial suite.

Perhaps swords will soon be beaten into plowshares. During the peace celebration we certainly saw wash boilers and garbage cans beaten into producers of infernal sounds.

For months the German army will have nightmare dreams of running at its topmost speed while dreadful Americans on motor trucks pursue it.

Don't let us be tempted into any extravagance by the thought that the war is over. Our boys must still be supported abroad; they must gradually be brought back; they must be returned to civilian life by degrees. There will be another Liberty loan. We must be ready for it.

In 1917 the British patent office received 253 applications for patents from women.

WEAKNESS REMAINS LONG AFTER Influenza

Reports Show That Strength, Energy and Ambition Return Very Slowly to Grippe Patients.

After an attack of influenza, doctors advise that nature be assisted in its building-up process by the use of a good tonic—one that will not only put strength and endurance into the body, but will also help to build up and strengthen the run-down cells of the brain.

One of the most highly recommended remedies to put energy into both body and brain is Bio-feren—your physician knows the formula—it is printed below.

There's iron in Bio-feren—the kind of iron that makes red blood corpuscles and creates vigor. There is lecithin also; probably the best brain invigorator known to science. Then there is good old reliable gentian, that brings back your lagging appetite.

There are other ingredients that help to promote good health, as you can see by reading this formula, not forgetting kolo, that great agent that puts the power of endurance into weak people.

Taken altogether Bio-feren is a splendid active tonic that will greatly help any weak, run-down person to regain normal strength, energy, ambition and endurance.

Bio-feren is sold by all reliable druggists and is inexpensive. For weakness after influenza patients are advised to take two tablets after each meal and one at bed time—seven a day, until health, strength and vigor are fully restored.

It will not fail to help you and if for any reason you are dissatisfied with results your druggist is authorized to return your money upon request—without any red tape of any kind.

Note to physicians: There is no secret about the formula of Bio-feren, it is printed on every package. Here it is: Lecithin; Calcium Glycero-phosphate; Iron Peptonate; Manganese Peptonate; Ext. Nux. Vomica; Powdered Gentian; Phenolphthalein; Oleoresin Capsicum. Kolo.

WITHDRAW THEIR APPEAL

Vannatta and Sorrell Pays Fines For Liquor Law Violation

Albert Sorrell and John Vannatta this afternoon withdrew their appeal from the decision of Mayor Irvin in the state cases against them for violation of the state prohibition law and paid their fines of \$50 and costs each. They were also given jail sentences of thirty days, which were suspended, last Tuesday evening, when the mayor returned a decision after having heard the evidence last Friday evening. Jesse Guire, who was arrested on the same offense, paid his fine without appealing to the circuit court. All three were arrested Thursday night, October 31, as they got off of a train, coming from Hamilton, O., with whiskey in their possession.

UNITED WAR WORK DRIVE STILL LAGS

Continued from Page One

998.89; Center, \$1,543.80 and Union, \$252.

It is evident that only two of these townships are anyway near their quotas. Two of them have been canvassed completely, but too many people evidently escaped with smaller contributions than they should have made.

Many instances have come to light of rare sacrifices made in this campaign, but there have been more where persons of wealth have either hidden behind a flimsy excuse to avoid giving, or have been allowed to escape with a contribution not in proportion to their ability to give.

A case is cited of a Rushville woman who is dependent solely on her son, who is working in another city, for her support. The canvasser called just after she had received her weekly allowance of \$10. She showed her patriotism by dividing it with the canvasser.

In another instance a Rushville man wanted to give \$100 and he was allowed to contribute only \$50 because the solicitors knew he could not afford it.

It is also related that the assessment of a woman, with a small farm who lives in one of the districts outside of Rushville, was assessed \$2.96 as her share of the quota in that district. She wrote out a check for the amount, but the solicitors saw the conditions and her willingness to do her share; so they tore up the check and contributed \$1.50 each themselves.

DRAFT RECORDS WILL BE SEALED

Continued from Page One

that the records themselves shall not be vitiated and in order that the local boards shall be protected against the importunities or registrants and against serious charges to which any other course would lend color and might give substance. The powers of the local boards in dealing with this situation may be gathered from recent instructions concerning penalties attached to mutilation, alteration or destruction of records.

"The proper and just administration of the War Risk Insurance Act and of future pension laws of the country will, in many cases depend almost exclusively upon data contained in these records which will likewise have a vital relationship to charges of desertion and delinquency involving the honor of thousands of registrants. In addition to the foregoing, it is from these records that the history of this war must in good part be compiled, and from them also must come information of the last value as to man power in case of any future war. For these reasons it is a matter of the highest patriotic duty on the part of the whole board from which no board member can escape, to see to it that these records are kept absolutely true and intact."

ASSISTED IN EPIDEMIC

In addition to those mentioned in the report yesterday, the following supplied their cars to the Red Cross for use during the epidemic of influenza in taking nurses from home to home and delivering soup: Mrs. Cora Dillon, Miss Ailene Budd, the Misses Elizabeth and Florene Gronier, Miss Marian Sparks and Owen L. Carr. About 300 persons were provided with hot soup during the epidemic.

With The Churches

St. Paul's Methodist Episcopal church, Clyde S. Black, pastor: Sunday school at 9:30 a. m.; morning worship with sermon by the pastor at 10:30, theme, "The Challenge of the Hour," special music; Junior League at 2:30 to which all the children are invited; Epworth League service at 6 p. m., led by Miss Mary Louise Poe; evening worship at 7 o'clock, sermon topic, "The Meaning of Redemption." A ladies quartette will sing. A cordial invitation is extended to all these services.

Manilla Methodist: Bible school 9:30 a. m.; preaching by the pastor 10:30 a. m., subject, "The Invincibles," Isa. 42.2. Dr. J. M. Walker, district superintendent will preach at 7 p. m.

Arlington Methodist: Bible school 9:30 a. m. The newly organized Junior Epworth League will meet at 2 p. m., Miss Essie Pressnall, superintendent, and the Senior League 6 p. m. Union Thanksgiving services will be held Thursday 7:30 p. m., with the Rev. Mr. Crawley, speaker.

At the Main Street Christian church, Bible school meets at 9:15. A special Thanksgiving program will speak on "Reasons for Rejoicing" and at 7 in the evening the theme will be "Some Signs of the Times." Orchestra and chorus choir at the evening hour. Union Thanksgiving service will be held in this church Thursday evening at 7:30 with a sermon by the Rev. C. J. Bunnell.

Pleasant Ridge Methodist: Bible school 2 p. m., preaching by the district superintendent, Dr. J. M. Walker at 3 p. m. Epworth League, Tuesday 7:30 p. m. each week.

St. Mary's Catholic church: Sunday services, masses at eight and ten a. m., no afternoon services. Solemn closing of the Mission services at 7:30 p. m.

Thanksgiving services will be observed at the Little Flat Rock Christian church Sunday. Sunday school will begin at ten o'clock and preaching services will be at 11:00 a. m. and 7 p. m., The Rev. J. C. Reynolds is the pastor.

First Baptist church, C. J. Bunnell pastor: Sunday school 9:30 a. m., public worship 10:45 a. m., and 7 p. m. Subject for the morning sermon, "Longing for Christ," and the theme for the evening hour, "A Man From Missouri." The mid-week prayer service will be held Thursday evening and the general public is invited to attend.

At the First United Presbyterian church the Bible school will meet at 9:30. At 10:45 the congregation will observe the Sacrament of the Lord's Supper. The Y. P. C. U. will meet at 6:00. There will be special music. Miss Goldie Cheek will lead the meeting. There will be public worship and preaching by the pastor at 7:00, sermon subject, "Judas Betraying Christ." The usual prayer service will be held Thursday evening at 7:30.

Glenwood Christian church: Sunday school 10 a. m., preaching services at 11 a. m., and 7 p. m., conducted by the Rev. G. I. Hoover.

THE BEST TEST

Years ago E. L. Hinkle of 815 N. Jackson St., Rushville, told of good results from using Doan's Kidney Pills. Now Mr. Hinkle confirms the former statement—says there has been no return of the trouble. Can Rushville people ask for more convincing testimony?

"Sharp ains in my back radiated to all parts of my body, and I was hardly able to walk," says Mr. Hinkle. "I couldn't rest well, owing to my kidneys acting irregularly. I found no relief whatever until I began using Doan's Kidney Pills. Nine boxes entirely cured me and made me feel like a different man. The terrible pains in my back left and my kidneys again acted regularly."

MORE THAN FIVE YEARS LATER, Mr. Hinkle said: "The cure Doan's Kidney Pills made for me is still lasting. I never have anything more serious now, than an occasional tired feeling across my back. A few doses of Doan's soon fix that up."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Hinkle had. Foster-Milburn Co., Mfgs., Buffalo, N. Y.—(Adv.)

COMING LEGISLATURE 'DRY'

State Will be Added to Those Indorsing National Amendment.

Indianapolis, Ind., Nov. 22.—The coming legislature will be "dry" by a large majority according to figures That the state will be added to those which have indorsed the national prohibition amendment is practically assured. That both branches will favor prohibition by a three to one proportion was the declaration of E. S. Schumaker superintendent of the Indiana Anti-saloon League.

NOTHING ELSE TO GIVE

The following concerning Miss Dove Meredith, formerly of this city, who was at one time employed in the Indianapolis News office, appeared in the News:

Miss Dove C. Meredith, court reporter in Room 2, superior court, was one of the first people to obey the health order to don masks. As she did so she wrote the following lines:

How can you wear it? Why do you ask?
And how can you grin at my flu mask?
We've given our money at all times and places.
And now we are asked to give up our faces.

15 EGGS A DAY FROM 23 HENS, IN WINTER

Winter, Until He Tried This Plan. Mr. Duni's Hens Hadn't Laid All

"We have 23 chickens and hadn't had an egg all winter. In five days after feeding Don Sung, we got four to five eggs a day; in three weeks, we were getting 10 to 12 eggs a day; in five weeks we got 15 to 19 eggs a day."—John Duni, Box 102, Cherry Valley, Pa.

Mr. Duni started giving his hens Don Sung last January in zero weather. He now keeps his hens busy in cold weather, when hens usually stop laying. A trial costs nothing. Here's our offer:

Give your hens Don Sung and watch results for one month. If you don't find that Don Sung pays for itself and pays you a good profit besides, simply tell us and your money will be refunded.

Don Sung (Chinese for egg-laying) works directly on the egg-laying organs, and is also a splendid tonic. It is easily given in the feed, improves the hen's health, makes her stronger and more active in any weather, and starts her laying.

Try Don Sung for 30 days and if it doesn't get you the eggs, no matter how cold or wet the weather, your money will be promptly refunded. Call at our store today for a 50c or \$1.00 package.

Society

Mrs. Rush Budd will entertain the members of her Sunday school class at her home in North Harrison street tomorrow afternoon.

Miss Frances Frazee will be hostess this evening at her home in North Main street for the members of the Epworth League cabinet.

The Rev. and Mrs. Clyde S. Black entertained today with a pitch-in-dinner in honor of Mrs. Black's birthday. Covers were laid for the following guests: Mr. and Mrs. J. H. Hammond, Mr. and Mrs. Thomas Innis, Mr. and Mrs. Frank Moock and Miss Maude Young of Milroy.

A very quiet wedding was solemnized yesterday at the Methodist parsonage when Andrew Walls and Mrs. Anna Lindsey, both of this city, were united in marriage, the Rev. Clyde S. Black conducting the ceremony.

Mrs. Elizabeth Dill entertained yesterday with a prettily appointed dinner party at her home. The table was adorned with a bouquet of chrysanthemums, where the dinner was served. The guests for the occasion were Mrs. Carl Scott and Mr. and Mrs. James Dill.

Mrs. Elmer Humes will be hostess tomorrow afternoon for the members of the War Mother's club at her home in North Harrison street.

Professor W. E. Jenkins, who was to speak to the members of the Shakespeare club and their guests Monday night, finds it impossible to come and will deliver his first lecture of the series, "The Soul of Europe," December 4, instead.

The members of the Daughters of the American Revolution held their first meeting of the season yesterday afternoon at the home of Mrs. H. V. Logan. During the busi-

War Mother's club in the afternoon, with Mrs. Elmer Humes, 704 North Harrison street.

ness meeting the society decided to support two French orphans, after which a very interesting program was given with Miss Mary Logan, who is a Missionary from India, speaking to the members. Mrs. Lincoln Gary gave an instructive reading.

Mrs. Amos Baxter was hostess yesterday afternoon for the members of the Yomo club at her home in West Seventh street. A very enjoyable afternoon was spent in knitting and needle work.

Mrs. John Jordan entertained the members of the Home Missionary society of the St. Paul's M. E. church yesterday afternoon. The society has planned to pack a barrel Monday afternoon at the home of Mrs. Raymond Hargrove, to be sent to the Deaconess home at Indianapolis. All members who can contribute some fruit, may either bring or send it to Mrs. Hargrove or any of the officers. A collection of \$45.35 was taken for their thank offering and part of the members did not bring their offering. After the business meeting was finished a program was given, with Mrs. Foster Miller and Mrs. R. F. McClanahan reviewing the study book. Mrs. Clint Bodine was in charge of the devotional exercises.

COMING NEXT WEEK

D. E. Roberts piano tuner will be in Rushville next week. Leave your order at Abercrombie's Jewelry Store.

M. E. CHURCH TO HOLD A CONFERENCE HERE

Pastors and Laymen of Ten Congregations to Gather in Rushville Monday.

TO DISCUSS CENTENARY PLANS

A training conference for the centenary campaign of the M. E. church will be held at St. Paul's church next Monday, with sessions both morning and afternoon. The purpose of the conference, which will include pastors and laymen from ten Methodist churches in this vicinity, is to make detailed study of the organization of charges and to lay plans for the centenary drive, which will be conducted for the purpose of celebrating the one hundredth anniversary of the founding of missions in the Methodist church. The church expects to make an offering of \$80,000,000 in five years, which will be divided equally between the home and foreign fields.

Dr. J. N. Walker of Connerville, district superintendent, will be in charge of the conference and pastors and laymen from the churches at Shelbyville, Wadron, Milroy, Clarksville, Richland, Carthage, Arlington, Morristown and New Palestine in addition to the St. Paul's church.

For the educational campaign, leading up to the centenary, laymen will be organized as minute men to make five minute speeches at church services. Judge Will M. Sparks has consented to act as chairman of the Rushville group which consists of the churches at Carthage, Arlington, New Palestine, Morristown and Rushville. It is planned to have 1,000,000 minute men at work.

Chris and Clifford King donated to the Red Cross seven and a half bushels of different varieties of apples, which were sold at auction yesterday at the W. R. Vansickle sale, bringing \$30.

PHOTOGRAPHS OF STATE'S WAR WORK

Committee on Photographs Wants
Pictures of Local Troops Depart-
ing for Camps.

LIBRARY FORCES INCLUDED

To Collect Views Showing all War
Activities in State, Haste is
Urged

Indiana's part in the great world war will be recorded with appropriate photographs now being compiled by the Indiana State Committee on War Photographs, nominated by George Graham Halloway, of Terre Haute, whose selection for the task by the Indiana State Council of Defense has been approved by the Historical Branch of the War Department. As a part of the committee, the library force of Indiana are represented by Demareus C. Brown, of the state library. Other members of the committee are as follows:

Charles F. Bretzman, Indianapolis; Ed. F. Perry, Ft. Wayne; C. A. Shubert, Princeton; Ben Larimer, Marion; K. K. Knecht, Evansville and Paul Shideler, Indianapolis.

The instructions issued to the committee by Major Kendall Banning, of the Pictorial Section direct that pictures be collected of local troops departing for training camps; activities of war relief societies; Red Cross work and food administration activities; arrests of aliens and suspects; destruction of property attributable to alien influences; sales of government securities; drilling of home defense military organizations, entertainment for troops and photographs of local commissions, draft boards and committees engaged in public service in connection with the war. In brief, the committee is to prepare and submit photographs showing all war activities in the state, with short captions.

It is the purpose of the committee to make haste in its work in order to prevent many photographs of public interest and value drifting into private collections or being lost. County councils of defense have been requested by the state council to co-operate in the work, in order that Indiana's photographic history may be complete, and representative.

utensils, such as glasses, dishes and spoons. The rules say that after such receptacles and implements have been washed in fresh hot water and inverted on a draining board to dry, they shall then be treated with live steam, boiling water or dry heat.

Paper receptacles may be used, the rules say, providing they be kept in a sanitary manner, thoroughly protected from injurious contamination and used only once. Straws used for drinks must be individually wrapped or where loose, kept in covered receptacles, protected from the dirt, dust and flies. All bowls for fresh fruit or other food material must be provided with close fitting covers. It is also stated that employees of this class of establishments must furnish a medical certificate.

Decide NOW what you SHOULD GIVE to the United War Work Fund.

Acid-Stomach Victims Sickly, Weak, Unfit, Depressed

Maybe you have an acid-stomach—and don't know it! There are millions of such people—weak, ailing, tired, worn out and "all in" before the day is half gone—listless and indifferent to their surroundings—often with aches and pains all over the body—woefully lacking in physical power and mental vigor—pale, emaciated—just dragging out a weary existence. Nine out of every ten of these people are unconscious victims of acid-stomach.

Thousands upon thousands of people who are subject to attacks of indigestion and biliousness; who are nervous, melancholy, mentally depressed; who suffer from rheumatism, lumbago or sciatica—yes, even many of those who have catarrh, ulcer or cancer of the stomach—if the trouble is traced to its source, it will often be found to be just acid-stomach. For these are only some of the ailments that are caused by what the doctors call superacidity, which is another name for sour or acid-stomach.

What you want to know above all else is how to quickly rid yourself of excess acid. A wonderful modern remedy called EATONIC literally wipes it out. It does the work easily, speedily and naturally. It makes the stomach pure, sweet, cool and comfortable. It helps you get full strength out of every mouthful of food you eat; and unless you DO get full strength from your food you cannot enjoy robust, vigorous health. You eat to LIVE. Your life depends on the strength you get from your food. There is no other way.

EATONIC is in pleasant-tasting tablet form—just like a bit of candy. We urge you—no matter what you have tried—take Eatonic just one week and find out for yourself how wonderfully improved you will feel. See how quickly EATONIC banishes the immediate effects of acid-stomach—bloat, heartburn, belching, food-repeating, sour, gassy stomach, indigestion, etc. See too, how quickly your general health improves—how much more you relish your food—how much more easily it is digested—how soundly you sleep—how nervousness and irritability disappear. And all simply because by taking EATONIC, you have rid your stomach of a lot of excess acid that has been holding you back and making your life miserable. EATONIC is absolutely harmless. It can be taken by the most delicate. Tens of thousands of people who have used it are enthusiastic in its praise.

This wonderful modern remedy is absolutely guaranteed so you run no risk in giving it a trial. Obtain—today—a big 50c box with our positive guarantee that if you are not pleased in every way, you get your 50c back. You know your druggist—and you can safely trust him to make this guarantee good.

HEALTH BOARD HAS NEW INSTRUCTIONS

They Govern Sanitary Management
and Conduct of All Food
Handling Establishments

ALSO THE SODA FOUNTAINS

Employees of Such Establishments
Are Required to Furnish a
Medical Certificate

The city board of health is in receipt of rules governing the travel of venereally infected persons and the sanitary management and conduct of restaurants, cafes, soda fountains and all food handling and food producing establishments, which were passed by the state board of health at its October meeting.

These rules have been promulgated as required by law, copies being furnished to all health officers, judges, prosecuting attorneys and county auditors. They are now in full effect and have the same force as law.

The rules to prevent the spread of venereal diseases provide that no person having a venereal disease shall move or be moved from one health jurisdiction into another without first obtaining permission to do so from the local health officer, of the place from which the removal is to be made, or from the state health commissioner. Other restrictions are thrown about movements of persons so afflicted in order to safeguard the health of the people of Indiana.

The instructions to proprietors of all hotels, restaurants, cafes and eating houses provide that such places shall be kept in a sanitary condition by keeping the kitchen well lighted and ventilated and the floors well scrubbed. All kitchen utensils must be thoroughly washed at least once a day and all refrigerators must be well cleaned at least twice a week.

Utensils used in serving food or drink must be cleaned and rendered free from injurious contamination after each separate use, according to the instructions, which set forth the methods to be used to make sure that these orders are followed.

It is also stated that all garbage must be kept in closed containers, securely protected from flies, and that the yard about the place must be free from filth or waste material of any kind.

"All employees or other persons engaged in any way in handling, preparing or serving food or drink, must furnish a medical certificate as required by the rules of the state board of health," the instruction say.

The rules laid down for proprietors of soda fountains and ice cream parlors are very similar in that they provide for the thorough daily cleaning of the soda fountain and all containers as well as all

Public Sale!

I will sell at my residence, 3 miles north of Milroy, 4½ miles south of Rushville, 6 miles west of New Salem, on

Intestinal and Stomach Worms

are the most common of hogs and pigs and they multiply very fast. It is easy to tell the pig that is loaded with worms. The hair is rough, has little or no appetite, coughs more or less and goes backward every day. Thousands of pigs and hogs die from worms every year. This can all be prevented by feeding ACME WORM BOUNCER from birth to maturity.

OFFICIAL LIMITS FOR TIME ZONES

Fixed by Interstate Commerce Com-
mission Under Terms of Day-
light Saving Law

CHANGES EFFECTIVE JAN. 1

Charges Unify Existing Lines and
Move Them Slightly Westward,
It is Announced

Washington, Nov. 22.—New and
official boundaries for time zones in
the United States, unifying existing
lines and moving them slightly
westward, have been announced by
the interstate commerce commission
to become effective at 2 a. m. Jan-
uary 1, next. The order is pursuant
to the daylight-saving act, which in
addition to authorizing an advance
of the clock during the summer,
provided for permanent United
States standard time and required
the commission to define the limits
of the standard time zones which
previously had been fixed only by
custom of cross-continent railroads
or by local law.

The line fixed by the commission
separating the eastern and central
time zones, beginning at the Great
Lakes follows the boundary of
Michigan through Toledo, Fremont,
Clyde, Bellevue, Monroe, Wil-
lard, Shelby Junction, Mansfield,
Galion, Marion, Columbus, Lancas-
ter, Dundas and Gallipolis, O.;
Huntington, Kenova and Williamson,
W. Va.; Dungannon, Va.; Bristol,
Va.; Tenn.; Telford, Tenn.; Ashe-

Victory Sale!

Announced in last week's papers is now in full
swing at Boxley's Piano Store and has

of Highway Projects Necessary

NO PROGRAM FOR YEAR

Washington, Nov. 22.—The United
States Highway Council announce
that no further applications
need be made to it for approval of
highway projects, that previous dis-
approvals are revoked, and that
pending applications require no fur-
ther action.

Procedure in securing materials
and transportation should follow
normal practices, officials of the
council said.

The removal of restrictions does
not affect highway bond issues,
which are under control of the Cap-
ital Issues Committee.

State highway departments will
not be asked to submit programs
for next year's work.

War Hints — War Helps— War Duties

(Compiled and condensed for the
Indiana State Council of Defense by
George Ade.)

Well, we celebrated a little and
now, if we have calmed down, there
are a few important facts which we
need to repeat to ourselves, over
and over. The responsibilities we
have assumed in connection with
the war will not be lifted even when
peace is established. The WAR
WORK campaign, which is under
way this week, must be carried
through to a successful issue be-
cause our soldiers will remain in the
field and their welfare must still be
our daily concern. Food must still
be conserved. All of our war-time
economics must be practiced until
we begin to arrive back at normal
conditions. By that time economy
will have become a habit and the
lessons of thrift will have been
learned by every household, and we
will emerge from the ordeal
strengthened for all of the hard
tasks of reconstruction.

The destitute must still be cloth-
ed. The hungry ones cannot subsist
entirely on good news. The soldiers
will be far from home on Christmas.
The debts we have assumed remain
as rugged realities.

Mr. Hoover says, "Peace or no
peace, war or no war, keep on sav-
ing food."

The Indiana State Council of De-
fense commends the work being
done by the organization known as
"The Fatherless Children of
France." One way of showing gra-
titude to France is to adopt a
French orphan.

The directions for sending Christ-
mas boxes to soldiers and sailors
are to lengthy to be repeated here,
so inquire of your local Red Cross.
Don't forget the boys at the front.

The coal situation is not as bad
as many people feared it would be
but, just the same, save fuel.

NAMES CARLISLE MAN

Indianapolis, Ind., November 21—
Governor Goodrich has appointed
David N. Curry, of Carlisle, as the
Democratic member of the legisla-
tive visiting committee to take the
place of Samuel Benx, of English,
who was appointed but is unable to
serve because of ill health.

LET THESE COLUMNS BE YOUR GUIDE

The Biggest Money-Maker on the Farm

Every good farmer MUST have a plow, a cultivator or a
wagon and some other things. He cannot raise a crop without
a plow, but he can raise a crop, such as it is, without a manure
spreader.

All farmers buy plows, cultivators and wagons because they
have to, just as the small boy goes to school because he is com-
pelled to.

When a boy grows big so he knows the value of schooling,
he goes because he wants to. When a farmer grows big to know
the value of a manure spreader and how many more bushels it
will make each of his acres produce, he buys it, not because he
is compelled to, but because he knows it is the best money-maker
he can put on his farm.

If our country demands more food, if we must feed besides
the people of our own United States, many of the peoples of the
belligerent countries, our duty is plain—we must make every
acre produce to its limit. There is no machine that will increase
the otherwise normal output of any acre of ground as much as
the manure spreader. There is no machine made today that will
INCREASE the food production of this country as will the
spreader. There is no manure spreader made that will come nearer
the ideal or perfect machine than the RUSHVILLE SPECIAL
Spreader you will find on our sample floor. Come in and see it.

RUSHVILLE, INDIANA.

BAD BREATH

Dr. Edwards' Olive Tablets Get at the Cause and Remove It

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work.

People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous calomel does without any of the bad after effects.

All the benefits of nasty, sickening, griping cathartics are derived from Dr. Edwards' Olive Tablets without griping, pain or any disagreeable effects.

Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowel and liver complaint, with the attendant bad breath.

Dr. Edwards' Olive Tablets are purely a vegetable compound mixed with olive oil; you will know them by their olive color. Take one or two every night for a week and note the effect. 10c and 25c per box. All druggists.

TO DARKEN HAIR APPLY SAGE TEA

Look Young! Bring Back Its Natural Color, Gloss and Attractiveness.

Common garden sage brewed into a heavy tea with sulphur added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get a bottle of Wyeth's Sage and Sulphur Compound at any drug store all ready for use. This is the old-time recipe improved by the addition of other ingredients.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and, after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.

This preparation is a delightful toilet requisite and is not intended for the cure, mitigation or prevention of disease.

FOOD POISONING.

By Dr. J. N. Hurty

(State Health Commissioner)

Every body has heard of food poisoning, yet few understand how food may poison one; and few know how frequently it occurs. Be it known then that food poisoning of greater or less degree happens daily in every locality. Some there are who continually suffer from chronic food poisoning and who drag out a miserable existence in consequence.

Gas or flatus with abdominal distention, is food poisoning, that is frequently attendant upon gorging, or because of an unbalanced diet. There are few persons indeed who have not experienced gastro-intestinal attacks of moderate severity which they attribute to something eaten shortly before. It is often possible to name with certainty the offending food. When the attack is more than ordinarily serious, neighbors hear of the sickness (poisoning) and when a number of persons are affected simultaneously, the papers almost certainly print the fact. Most attacks of food poisoning are usually slight and recovery early and so are considered negligible or of trivial importance. Later, the victim is disabused of this idea when headaches, biliousness, dizziness, spots before the eyes, muscular pains, roaring in the ears, sweaty hands and feet and other uncomfortable symptom appear. Not only food poisoning brings about degenerative changes in the kidneys or blood vessels. Indeed, very many kidney and liver diseases result from repeated or perhaps almost daily food poisoning. Eczema is caused by food poisoning. It is really funny to him who knows this, to hear people ask in a drug store for salve or lotion to cure eczema, when the only cure is to correct the diet. Here, surely, is a change to throw physic to the dogs, and then eat sensibly.

Many cases of food poisoning proceed from bacterial poison (ptomaine) which have been generated in meat and fish dishes which have been kept a few hours. If any one wishes to have practical experiences with ptomaine poisoning, it is a simple matter. Their wish may be indulged by preparing from good materials some salmon or chicken salad, keep for twelve or fifteen hours in a refrigerator which is extra clean, and then eat the stuff. And again, you may get an equal result by gorging with any meat salads. In the last instance (gorging,) the poison making microbes, always in meats, elaborate poisons in the intestines, the opportunity being afforded because the gorging hinders or overcomes a digestive processes. Where digestion is vigorous and food is taken in moderation, poison making microbes have no chance. Here is the physiological argument against gorging.

Food poisoning let us call it immoderate eating, especially of meats—is given as the cause of the reduced expectancy of life in the United States. It is also one cause

ACHES AND PAINS QUICKLY RELIEVED

You'll find Sloan's Liniment softens the severe rheumatic ache

Put it on freely. Don't rub it in. Just let it penetrate naturally. What a sense of soothing relief soon follows!

External aches, stiffness, soreness, cramped muscles, strained sinews, back "cricks"—those ailments can't fight off the relieving qualities of Sloan's Liniment. Clean, convenient, economical. Ask any druggist for it.

Sloan's
Liniment
Kills Pain

30c, 60c, \$1.20

of our reduced strength. The average strength of the early pioneers who lived on simple foods, sometimes scanty, was greater than the present average. Malaria played havoc even with the strong men of that day, but the same amount of malaria poison introduced into the present stock would certainly exterminate it.

A sum up of the whole matter is—foods with poisons formed in them before they are eaten, cause not a little poisoning, but by far the greater amount of food poisoning follows immoderate eating, especially immoderate eating of meat. Solomon "got onto this" for he said—"be ye not among riotous eaters of flesh". And he also warns against gluttony over and over.

NEW OPPORTUNITY FOR SERVICE SEEN

Message to Community War Labor Board Says End of Fighting Imposes Important Duties.

NEW OBLIGATION IS FACED

The Rushville community war labor board has received the following message from William B. Wilson, secretary of labor in the president's cabinet, pointing out the new responsibilities of the board since hostilities have ceased:

"I sincerely trust that no member of the Community Labor boards will fail to appreciate that the cessation of hostilities brings new opportunities for service, and imposes new and important duties. The country now faces an obligation to return to suitable employment those it induced to enter its service in the field and factory. The well being of the people for many years to come depends largely upon the manner in which that obligation will be fulfilled, as well as the indication of those principles of justice which animated us in the pursuits of war. Community war labor boards are best suited and equipped to help in the process of transition from war to peace. At no time have their services been more necessary. I confidently appeal to each member to continue serving until the last man from the army and war service has been placed in suitable employment. Much depends upon members of Community War Labor boards in the fulfillment of our task."

A MOTHER'S STRENGTH

Mother, whose hands rock the cradle, often needs more than ordinary food to help maintain the blood-quality and strength and to assure adequate nourishment to the child. It is as unwise for the mother, as it is dangerous to the child, to place dependence upon alcoholic stimulation, for strength is not found in alcohol.

SCOTT'S EMULSION

of purest cod liver oil, absolutely free from alcohol, is mother's true friend, in that it performs a two-fold duty. Scott's is tonic-nourishment, particularly fitted for the trying period of motherhood.

SCOTT'S EMULSION BUILDS UP STRENGTH.

THE BOLSHEVIKI!

Must We Fight Another War TO Save the World From Its Menace?

A shudder runs through the Western nations as they watch the millions of Central Europe plunge from autocracy toward anarchy, and publicists begin to ask if we must fight again—against the new foe.

"Must we save the world from anarchy" is on every lip and the fact that such questions as these are being asked everywhere is proof enough that "the war does not end when the enemy surrenders" according to *The New Republic*. On the other hand, we find the *Hartford Courant* convinced that the scientific socialism of Germany can never develop the disorder that was bound to accompany the Bolshevism inherited from the old Russian nihilism. And the *Boston Globe* reminds us that "whereas Russia was predominately illiterate, in Germany illiteracy is less than one per cent."

The leading article in THE LITERARY DIGEST this week deals with the greatest menace that threatens the conclusion of world peace—the Bolsheviki. Other news-features in this particularly interesting number of "The Digest" are:

Important News of Finance and Commerce

How "The Digest" Will Serve You in the Future

Just as THE LITERARY DIGEST has provided during the long years of war that have just ended the most authoritative and dependable of news articles from week to week, so now, in the wonderful period of reconstruction that lies before us, it will furnish the vital news upon all the great questions of the day in a similarly interesting and comprehensive way. It will cover fully the movements of our troops in Europe, the return of our armies to their native land, the arrangements for disbanding the various

units and restoring their members to civil life, the great readjustments that will become necessary in the worlds of finance, commerce, and industry, the rehabilitation of the wounded and crippled, the means by which they may be made self-supporting, etc. All these and many more allied topics in the social, political, and economic fields, will be treated without bias and with the simple aim of presenting the facts for your consideration and judgment. Study them each week in The Digest.

LAXATIVE for Aged People

THE BANE of old age is constipation. The bowels become weak and unable to perform their functions without aid. For this purpose only the mildest and gentlest laxative should be used. The use of harsh cathartics aggravates the trouble and makes the constipation worse. Chamberlain's Tablets are a favorite with people of middle age and older on account of their gentle action.

Chamberlain's Tablets

PUBLIC SALE

We, the undersigned, having dissolved partnership, will sell at public auction at the Coltrane farm, one and one-half miles west of Columbia, and four miles east of Orange, on

MONDAY, NOV. 25, 1918

The following personal property, to-wit:

DEC. 2-6 IS WEEK FOR CONSERVATION

Patriotic Agencies Asked by Council of Defense to Help Make Event a Success

NEW CONSERVATION PROGRAM

Intended to Support Necessities Disclosed by Present Survey of Food Conditions

County Councils of Defense, the Four Minute men and other patriotic agencies have been asked by the Indiana State Council of Defense to assist in making Conservation Week for World Relief, December 2-6, a complete success. The United States Food administration at that time will promulgate the new conservation program, which is intended to support the necessities as they are disclosed by the present survey of food conditions abroad, by Herbert Hoover, federal food administrator.

"Many parts of Europe are threatened by famine and disorder on account of the lack of food and it is most urgent that every household in America should rally to this new call," says Bulletin No. 217, issued by the state council.

"We therefore request," the bulletin continues, "that you place yourselves in touch with your county food administrator, who will have the details of the plans for Conservation week, and lend him the full assistance of the council of defense organizations."

In anticipation of the work to be done in the state, the food administrators and conservation workers will meet in conference in Indianapolis Thursday November 21, and hear an official message from G. Harold Powell, acting federal food administrator, in the absence of Mr. Hoover.

DR. OSBORN'S IMPROVED METHODS ARE EXCLUSIVELY HIS OWN, AND THERE IS NO GUESSWORK ABOUT IT. THEY HAVE PROVEN SUCCESSFUL.

In the treatment and cure "Without the use of the knife of Piles, Fistula, Fissure, Prostatic Enlargement, Rupture, Chronic Diseases of the Kidneys, Bladder, Obstruction, Rheumatism, Stomach, Bowels and all other curable Chronic Diseases.

No Matter How Obstinate or How Contracted — Cured

When I say I can cure you, you can depend upon it, for I know from the successful results in thousands of similar cases to yours, just what I can accomplish. Grateful patients treated by me are constantly recommending others, and this is why I possess such a large practice.

Men! Women! If you do less than you should, on your farm, at your desk, or in your shop, you are in some way weak. If you can't accomplish all that you expect or hope for, you are the silent sufferer from some hidden disease that affects one or more of the important nerve centers of the body. These neglected or unknown conditions, are usually diseases of the Pelvic System, which reflexly act upon the organs of Elimination, digestion and the nervous system, which in turn has its influence on the brain. I have made a special study of the Nervous System and have perfected methods that will cure where ordinary methods have failed. I will give you a searching and thorough examination FREE, thus determining the exact location of your trouble.

BEAR IN MIND that I have in Indianapolis one of the most modern and thoroughly equipped offices in the state with a Specialist in charge who is ripe in years of experience, rich and mature in learning in his chosen work. That neither one of us will promise you more than we can give, and should you be unable to see me on date specified above, you can write, or better still, call at my office, 314 Traction Terminal Building, Indianapolis.

I do not use the knife, neither do I do any cutting.

Tomorrow May Never Come — Get In Touch With Me Today.

Are You Ruptured?

No ruptured man, woman or child need be told of the suffering and agony resulting from the neglect of this awful affliction, nor of your many disappointments and failure to find a cure by experimenting with old-fashioned treatments, leaving you the sufferer in even worse condition than before, and mentally skeptical of ever being cured.

Every ruptured person in Indiana who calls to see me is entitled to a Free Trial of the

INDUSTRIAL FARM FOR FEEBLE MINDED

State Board of Charities Will Recommend to Next Legislature That Be Established.

FT. WAYNE SCHOOL CROWDED

Indianapolis, Ind., Nov. 22—Plans are being made by the state board of charities to recommend to the next session of the legislature the establishment of an industrial farm colony for the feeble minded. The schools for feeble minded youths at Ft. Wayne is crowded now, only 75 patients being admitted last year. There are nearly 1,500 inmates.

According to Amos Butler, secretary of the state board of charities, the law passed by the last legislature providing that non-resident feeble-minded, insane and epileptics be returned to their resident state, have saved Indiana about \$20,000.

Fifty-two such cases were reported the first nine months of this year. All of these have been disposed of but eight and final action is now pending in their cases.

ALONG THE FOOD LINE

The shortage of dried fruit in America is a hint to housewives to gather up all the left-overs and store them, either dried or canned. Winter pears, apples, grapes, pumpkins, carrots all furnish material for jam.

Apples are 90 per cent juice, and practically all the food value is in the juice. So store up the windfalls in the form of sweet cider, boiled cider, vinegar, butter, jelly, syrup, pie filling and sauce. All of these can be made and kept without sugar. Reduce five gallons to one for syrup seven to one for jelly.

Dry a supply of green peppers, sweet red peppers, parsley sage, mint and thyme for seasoning stews, scallops, salads, sausage and cottage cheese.

Set your traps and clear orchard and garden of rabbits. If you catch an over-supply, can them or use the meat in rabbit-pork sausage.

TIME OF CONFERENCE UP TO LLOYD-GEORGE

If English Premier Can Leave England Before Election, Peace Conference Will be Next Month

WILSON MAY GO OVER TWICE

(By United Press.)
Washington, Nov. 22.—Convening of peace conference in France is now virtually up to Lloyd-George. The British elections are to be held Dec. 28. If the premier feels he can leave England before that date, the peace conference should get under way by middle of December, it is said here. If he can not leave however until after the elections, the conference probably will not begin until the end of December or the first of January.

Pres. Wilson will make his arrangements accordingly. The president expects to visit England and Italy, as well as France, his friends says. It is now generally believed that the president will make two trips to Europe during the session, the first for the opening and the second when the peace agreement is ready for the final signature.

EXPRESS RATES BOOSTED

Washington, Nov. 21.—Rates on all express lines after federal control were raised today by Director General McAdoo. The increases, which ranged from ten cents to seventeen cents per one hundred pounds, are expected to produce approximately \$24,000,000 additional revenue.

AFTER THE GRIPPE

To regain your health and strength again you must take a tonic and for this purpose the Medical Profession is prescribing Iron, Nux Vomica, Gentian, Capsicum and Zinc Phosphide in some form. Many preparations containing Iron are very constipating, but this is overcome by the addition of Aloin in Chase's Blood and Nerve Tablets, which contain all of the above tonic remedies. In these Tablets you have all that is good in tonic medicines without any harmful effects. They are safe and sure health builders and at this particular time it would be hard to over estimate their value.

Weigh yourself before taking them and see what you gain in weight and strength.

Nearly all druggists sell Chase's Blood and Nerve Tablets at sixty cents a box. Special ninety cents.—Adv.

THE QUICK WAY TO STOP A COUGH

When you have a severe, stubborn cough or cold, you need the best possible medicine you can get. Why not, therefore get one which is guaranteed the most soothing and satisfactory remedy ever used, or get your money back? **Druggists everywhere are authorized to refund money if SCHIFFMANN'S EXPECTORANT** is not found the very best ever used for Coughs, Colds, Bronchitis, Croup, Whooping Cough or Hoarseness. When mixed at home with honey or sugar syrup, 50 cents worth makes 64 teaspoonsful. Positively contains no chloroform, opium, morphine or any other narcotic, and is unlike any other cough medicine. It is so pleasant to take that children are fond of it. In case druggists should not have it order direct of **R. J. Schiffmann, St. Paul, Minn.**

Mr. and Mrs. Lowell Vickrey spent Sunday with Mr. and Mrs. Ross Logan and son William.

Mr. and Mrs. Cleve Geise and family spent Sunday evening with Mr. and Mrs. Lot Sampson.

Mr. and Mrs. Will Edleman and family of Rushville and the Misses

Legal Ads34 TO ALL TO WHOM THESE PRESENTS SHALL COME, GREETINGS: I, William A. Roach, Secretary of State of Indiana, hereby certify that the RALEIGH GAS, OIL AND WATER COMPANY has this day caused to be filed in the office of the Secretary of State of the State of Indiana, the properly signed and attested consents, statements and papers required by Section One of an act of the General Assembly of the State of Indiana, entitled, "An act prescribing the method and procedure for the voluntary dissolution of private corporations and voluntary associations, and declaring an emergency," approved March 14, 1913.

And I further certify that said written consents, statements and papers so filed as aforesaid, show that said company and the officers thereof have complied with the provisions of said Section One of said act, and that said corporation is now in process of dissolution.

In witness whereof, I have hereunto set my hand and affixed the seal of the State of Indiana at the City of Indianapolis this 12th day of November, A. D. 1918.

WILLIAM A. ROACH, Secretary of State, By P. H. Wolfard, Deputy.

Special Notices...35

Mrs. Howard Hank and Marie Henbee were at Rushville Saturday.

Word has been received from Harrison Wertz of Hot Springs, S. D., that he had been afflicted with the influenza and it has left him in a serious condition.

A baby girl was born to the wife of Elmer Jamison, Wednesday morning.

BEGINS PLANS FOR NEW REFORMATORY

Commission Appointed by Governor Goodrich Goes to Jeffersonville to Procure Data TO REPORT TO LEGISLATURE

Advisability of Locating it in Central Part of the State Will be Considered

(By United Press.) Indianapolis, Ind., Nov. 22.—The commission appointed by Governor Goodrich to investigate the conditions surrounding the removal of the state reformatory from Jeffersonville and the construction of new buildings will visit the institution this week to procure data for their report.

The committee will make a report at the opening of the general assembly in January. The report will cover three important points.

1—The advisability of removing the institution to some more central point in the state.

2—The character of the new buildings to be constructed.

3—The probable cost to the state of the entire undertaking.

It has been pointed out that with the reformatory located at Jeffersonville, Indiana merchants receive few benefits from it, as most of the supplies are purchased in Louisville.

Traveling expenses for officers taking prisoners to the institution is uneven as those from the northern counties have to travel the entire length of the state, while southern counties have a short distance to send men, causing an injustice to the northern counties.

The commission will also visit similar institutions in other sections of the country, getting the most improved ideas on construction and location of penal buildings.

EIGHT HOOSIERS IN HUN PRISON CAMPS

According to Red Cross Reports Eight Indiana Soldiers Should be Released

OSGOOD MAN AMONG THEM

(By United Press.) Indianapolis, Ind., Nov. 22.—According to Red Cross reports there are eight Indiana soldiers in German prison camps who should be released. These are;

Hoyt Decker, Vincennes; Herschel McKee, Indianapolis; Paul Baer, Ft. Wayne; Guy B. Wiser, Mishawaka; Thomas C. Coolman, Thomson; William M. Mooney, Columbus; C. H. Doane, Terre Haute; Harvey Phipps, Aurora, B. A. Fellers, Mishawaka; Harry Scott, Florence; Debert Stephenson, Bedford, Frank Wilmer, Westport, Dallis Kelly, Osgood.

S. M. Keller, South Whitley; Frank C. Hickman, Logansport; John L. Dozier, Indianapolis; Jessie Hargrove, Mt. Vernon; Russell C. Harrison, Lafayette; Clarence Endley, Centerville; Alex Chinskey, Michigan City; William O. Weaver, Solisbury; John Kool, Bicknell; Orville Thornton, Jasonville; H. E. Schutte, Farmers Retreat; William Tamm, Jasonville; Jesse Templeton, Linton; Clyde Durkill, Farmland; Charles Kaiser, Aurora, Hiram Scott, Grass Creek.

A DEAD STOMACH

Of What Use Is It? Thousands, yes hundreds of thousands of people throughout America are taking the slow death treatment daily.

They are murdering their own stomach, the best friend they have, and in their sublime ignorance they think they are putting aside the laws of nature.

This is no sensational statement; it is a startling fact, the truth of which any honorable physician will not deny.

These thousands of people are swallowing daily huge quantities of pepsin and other strong digesters, made especially to digest the food in the stomach without any aid at all from the digestive membrane of the stomach.

Mi-ona stomach tablets relieve distressed stomach in five minutes; they do more. Taken regularly for a few weeks they build up the run down stomach and make it strong enough to digest its own food. Then indigestion, belching, sour stomach and headache will go.

Mi-ona stomach tablets are sold by druggists everywhere and by Johnson's Drug Store who guarantee them.—Adv.

WAR WORK

American women nurses are installed eight miles in the rear of the fighting lines "over there." Right here at home many women should learn nursing to take care of the sick or, in emergencies, the wounded. You can learn a great deal by obtaining the "Medical Adviser" a book of 1,000

pages, bound in cloth, containing chapters on First Aid, Bandaging, Anatomy, Hygiene, Sex Problems, Mother and Babe. 200 prescriptions for acute and chronic diseases; profusely illustrated by wood cuts and colored plates. Ask your druggist or send 50c. to Publisher, 663 Main Street, Buffalo, N. Y.

If a woman is nervous or has dizzy spells, suffers from awful pains at regular or irregular intervals she should turn to a tonic made up of herbs, and without alcohol, which makes weak women strong and sick women well. It is Dr. Pierce's Favorite Prescription. Then, for the liver and bowels nothing is so good as Dr. Pierce's Pleasant Pellets.

Laporte, Ind.—"Eighteen years ago I first became acquainted with Dr. Pierce's Favorite Prescription. It was during expectancy and I was very frail and delicate. But the 'Favorite Prescription' strengthened me and I had comparative no suffering. My baby was a strong, healthy girl and has always been fine and healthy. For the expectant mother I think there is nothing to equal 'Favorite Prescription.'"

"The 'Pleasant Pellets' I keep in my medicine closet for immediate use and feel that I couldn't keep house without them."

—Mrs. Minnie McGregor, 612 Clement St.

BIG EATERS GET KIDNEY TROUBLE

Take a glass of Salts before breakfast if your Back hurts or Bladder bothers you.

The American men and women must guard constantly against Kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out, they weaken from overwork, become sluggish; the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine.

This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys; to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder disorders.

Jad Salts is inexpensive; cannot injure, makes a delightful effervescent lithia-water beverage, and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time.

Decide NOW what you SHOULD GIVE to the United War Work Fund.

Is Your Blood Poor? If it is, You Need Vinol

Anaemic, run-down, nervous, devitalized conditions result from poor or thin blood. A glance at the formula of Vinol, printed on the label, will show that it contains the very ingredients necessary to make good blood. It soon creates a healthy appetite, improves digestion, and helps you to get full benefit from your daily food, and builds you up.

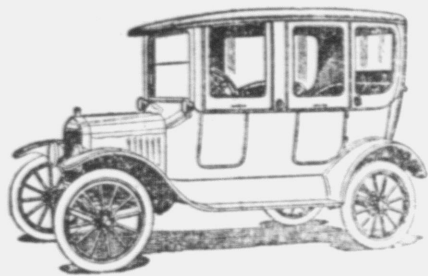

Drewsville, N. H.
"My daughter was anaemic, had poor blood and suffered from indigestion and bilious attacks. As Vinol helped my son, I gave it to my daughter—she soon improved in health, and it has built her up and restored her health."—Mrs. N. Burnell.

Bradford, Pa.
"I have used Vinol for impoverished blood. I was broken out with a rash and run down so it was hard for me to keep about my work. Other medicines did no good, but Vinol enriched my blood and improved my condition very rapidly."—Rose Lasky.

For all run-down, nervous, anaemic conditions, weak women, overworked men, feeble old people and delicate children, there is no remedy like Vinol.

Vinol Creates Strength

Detroit Weatherproof Detachable Tops

They are designed to afford motoring comfort in Winter as well as Fall and Summer.

They transform your Ford in a few brief seconds to a warm—absolutely storm-tight from windshield to rear window—brilliantly lighted limousine.

For the Ford driver who has considered winter driving a hardship rather than a pleasure, this patented all-weather top will be most acceptable as it eliminates instantly all his former hardships.

No bothersome side curtains to adjust in the biting cold or blinding snowstorms. The weatherproof top becomes an integral part of your Ford at a very reasonable cost.

Wm. E. Bowen Garage
306 N. Main St.

Forget Your Feet

And enjoy this beautiful autumn weather. You can when they are comfortable. If they bother you let our trained expert, Mr. Hammer, examine them. He can relieve them instantly with shoes that really fit and with all-leather Wizard Foot Appliances.

Examination Free.

Rushville, Indiana, Friday Evening, November 22, 1918

TWELVE PAGES TODAY.

UNITED WAR WORK DRIVE STILL LAGS

Cash and Pledges Officially Reported up to Today Amount to Only \$15,494.69

URGENT APPEAL FOR HELP

Those in Charge of Campaign Issue Call to People to Help Redeem County's Record

Word has come to the managers of the United War Work campaign that many people have not been canvassed. Those who have not been seen by a solicitor are urgently requested to take their pledges or contributions to Will E. Inlow, county chairman, or Charles G. Newkirk, treasurer, at the Rushville National bank.

Actual reports received by Will E. Inlow, county chairman for the United War Work campaign, show that \$15,494.69 has been pledged and partially paid since the drive began a week ago last Monday.

It is unofficially known that there are several thousand dollars in pledges and cash which have not been reported, but it is a safe guess that the county is not anywhere near its quota of \$40,000 which it was expected to raise by last Monday evening.

The United War Work campaign has been the slowest of any drive for funds for patriotic purposes, which has been conducted here during the more than nineteen months the United States has been engaged in the conflict with Germany. It has lagged from the very first and all efforts to give impetus to the movement have failed.

The reason can scarcely be explained, except for the general disposition among the people to relax since they believe that the war is over. It is pointed out, however, that is not a feasible reason because other counties in the state, which are no more patriotic than Rush, subscribed their quotas the first few days of the campaign, some of them meeting their allotment the very first day. In some cases a 150-percent subscription has been registered. Rush county has always met every request for funds during the war and without exception has over-subscribed. Because of the county's past record, those who are in close touch with the present campaign hope that the people will come to a realization of the light in which the county now stands and help redeem it.

Part of the trouble lies with the captains and their assistants who have not canvassed their territory. Some of them have never solicited a single person and have reported to the chairman that they did not intend to do so. In Rushville township alone there are fifteen districts from which there have been no reports from the captains. In a few rare cases the solicitors have canvassed their territory, but no general solicitation has been made in any of the fifteen districts.

Anderson township, which has a war chest, is the only township in the county which has officially reached its quota of \$4,000. Walker and Posey townships are reported to be near their goals, but no reports whatever have been forthcoming from Noble, Washington, Ripley or Jackson townships.

Rushville township has officially reported pledges and cash contributions amounting to \$7,807.10, which is a little more than half of its quota of \$13,000. None of the following townships have reached their quotas, according to reports, available, but they have reported the following sums:

Richland, \$577.00; Orange \$1, Continued on Page Four

WILHELM HAS THE "FLU"

Former Kaiser is Ill, According to a Report From Amsterdam

(By United Press.) Amsterdam, Nov. 22.—The former kaiser is understood to be ill with influenza. He is believed to be constantly in communication with Germany. It is reported that a wireless station has been erected on top of the castle and that German airplanes frequently fly over the estate, dropping messages.

Two hundred bags of gold and silver German coins, each weighing 100 pounds, have arrived in Holland for the former kaiser. It was reported here today.

NAVY WILL BE TWICE AS LARGE AS IN 1914

Admiral Taylor Tells House Naval Committee it Will Contain 700 Vessels by 1920

U-BOAT CHASERS TO BE SOLD

(By United Press.) Washington, Nov. 22.—In July, 1920 the American navy will have more than twice the number of ships it had before the outbreak of the war, Admiral Taylor, chief of the naval construction, told the house naval committee today.

The fleet now includes about 250 wooden submarine chasers, which the government expects to sell to other governments or put out of commission.

"Destroyers represent the backbone of the increase," Taylor said. "There are now 100 of these in commission and many more will be built in the next eighteen months, making this country's destroyer force nearly equal to that of Great Britain."

One new dreadnaught, the Idaho, will be commissioned in about a month. Two more, the Tennessee and California, are approaching completion, and an additional two will be done before the summer of 1920.

The strength of the navy in 1915, Admiral Taylor said, was about 300 ships. By July, 1920, he estimated the number would be something over 700 vessels.

NINETEEN NEW CASES OF INFLUENZA HERE

Report For 24-Hour Period Ending at Noon Largest Since Ban Was Lifted 3 Weeks Ago

TWO MORE SCHOOL CHILDREN

Nineteen new cases of the Spanish influenza were reported in Rush county during the twenty-four hour period ending at noon today. This is the largest number of cases which have been reported in this county since the ban was lifted about three weeks ago.

Ten of the cases are outside of Rushville, four from Milroy, one near Lewisville and five in the Martin family southwest of the city where there is already a patient suffering with the smallpox. The nineteen reported today bring the total since the malady became epidemic to 918.

Two of the nine new cases in Rushville were school children. This makes six children who have been reported yesterday afternoon were Mr. and Mrs. Frank Abercrombie and son Manly, 1224 North Main street, and Mrs. Dora Abercrombie, 204 East Ninth street. This morning's reports were Irene Abernathy, 227 East Second street; Mrs. Bert Madden and daughter Helen, East Fourth street, and Marie and Ruby Sterrett of West Third street. The disease has appeared in the last named family previous to this time.

TWO WELLS WILL SUPPLY THE CITY

Council Penetrates New Shed Containing Better Grade of Water Than That Now Used

NO IRON OR MAGNESIA IN IT

Wells Under Test Pump 650 Gallons a Minute—To be Attached to Mains Next Spring

The Rushville city council has two water wells on A. L. Stewart's farm less than a mile southwest of the city, which under tests have shown a capacity of 650 gallons a minute, more than enough to supply all the patrons of the Rushville water plant.

Photographs were taken yesterday of these two wells, showing them in action. One throws a four inch stream and the other a five inch stream. Most of the day yesterday was spent in pumping the stone and other material out of the wells, preparatory to capping them for the winter. A small vent will be left in each well to prevent freezing, as water flows from them continually.

The new wells will not be attached to the city water system until next spring when deep well pumps will be installed and a line will be run to the nearest city mains. The pumps will be run by electricity and wires will have to be strung to the new wells to provide current from the local plant.

Both are eight inch wells and the one which throws a five inch stream is 92 feet deep and pumps 350 gallons a minute. The one which throws a four inch stream is 93 feet deep and pumps 300 gallons a minute.

A twelve inch well will be drilled in the same vicinity next spring because the city council believes that it has struck an oasis in that vicinity, after having attempted for several years to locate some good wells closer to Rushville. In going farther from the city the council penetrated a new water shed which gives promise of providing a suitable supply of water for Rushville for many years to come.

The character of the water from the new wells makes it plain that they are drawn from a different vein than that from which the present water supply comes. The water is very clear and contains no iron or magnesia, such as does the water which is now being used and which has greatly damaged the water mains and fittings and leaves a sediment that is very injurious to everything with which it comes in contact. The water is not so hard as that now being used and has a much better taste, indicating it comes from limestone.

The city council and other city officers estimate that these two wells alone will save Rushville many thousands of dollars a year, not only because of the smaller expense entailed but because the water will not be as damaging to the mains; also for the additional reason that the city has been at a heavy expense pumping the wells from which the present supply is being drawn, because all of the wells are about exhausted.

Two other wells have been drilled in the same vicinity as the ones which give such an abundant supply of water but one of them was a failure and tests on the other one have not yet proven whether it will be of any value.

O. A. For a of Knightstown was the contractor, who drilled the wells.

TO PROTEST TO DUTCH

Paris, Nov. 22.—The allied governments have decided to send an official protest to the Dutch government against the violation of Holland's neutrality as a result of her permitting German troops to cross the province of Limburg in their retreat from Belgium, according to the Echo de Paris.

SURROUNDED BY 200 ALLIED CRAFT

Seventy German Warships Lie in the Firth of Forth After Complete Surrender Yesterday

DELIVERED AT 9:10 THURSDAY

American Army of Occupation Continues Advance, Receiving Reception From Luxemburg

(By United Press.) Aboard the United States Steamship Arkansas, Nov. 22.—Seventy German warships lie in the Firth of Forth, surrounded by more than 200 allied battle-craft, which are prepared to guard them until peace is signed.

German command and man the vessels.

At 9:10 Thursday morning, German naval officials delivered this powerful fleet to the allies, which were represented by the British navy, five American dreadnaughts and three French warships.

As seen from the Arkansas, this spectacle was most dramatic. First there appeared the British observation balloon towed by the British cruiser Cardiff which went to escort the Germans to the rendezvous. A few seconds later appeared a low black shape which gradually took the form of a battle cruiser. This was the Seydlitz.

Shortly after another appeared—the Moltke. Then came the Hindenburg, the Derfflinger and the Von der Tann in single file.

The Germans found themselves passing between two lines of warships, six miles apart. Each line was fifteen miles long. The line of German ships was only slightly less.

The allied fleet was divided into squadrons, according to the class of the ships. As the German corresponding squadron came alongside, the allied warships counter-marched and escorted them to the Firth of Forth.

This brought the Arkansas broadside the Hindenburg, her particular charge.

While the Arkansas was turning the Friedrich der Grosse, leading the battleship squadron, came in sight. She was followed by the Kaiser, the Kaiserine and the Konig Albert.

Then came the Bayern, the Grosser Kurfurst and the Kron Prinz. Next was the Karlsruhe, leading the cruisers. They were trailed by fifty destroyers.

Americans in Luxemburg

With the Americans Advancing Toward the Rhine, Nov. 22.—The American army of occupation passed through the city of Luxemburg, capital of the grand duchy of that name, Thursday afternoon.

Great crowds, hailing the Americans as deliverers, escorted the doughboys through the streets, which were decked with allied flags.

Belgians in Louvain

Havre, Nov. 22.—The Belgian army has passed through Louvain, the city which was utterly destroyed by the Germans early in the war, it was announced by the Belgian war office today.

Albert Enters Brussels

Brussels, Nov. 22.—King Albert of Belgium entered his capital today amid a great celebration. The queen and their three children were present.

ARLINGTON WINS GAME

Carthage was unable to penetrate Arlington's defense at Carthage. Wednesday night and lost a hard fought game, nine to two. Veatch, Arlington's star floor guard, led the scoring with three field goals, while Silver, the winners' sturdy back guard, repeatedly smashed the losers' offense. In the curtain raiser, the Arlington seconds overwhelmed the Carthage seconds, 16 to 1.

FIRST SNOW IS PROMISED

Freezing Temperature Also Forecast For Tonight by Weather Man

The first snow of the season, together with freezing temperature, is promised for tonight by the weather man.

A few flakes of snow fell this morning, but there was scarcely enough to approach the dignity of a snowfall. The mercury got dangerously near freezing last night, but towards morning began to rise. The temperature was around forty today, indicating that colder weather may be expected by tonight.

WOMAN IS BURNED TO DEATH NEAR WALDRON

Death of Mrs. William Powell, Age 61, Yesterday Unexplained—Body Found by Husband

BUILDING WAS NOT FIRED

Shelbyville, Ind., Nov. 22.—Mrs. William Powell, age sixty, who lived one mile east of Waldron, was burned to death Thursday afternoon at her home. The manner has, as yet, been unexplained.

The body was found on the floor of a summer kitchen, burned to a crisp. The discovery was made by her husband and her sister, Mrs. Anna Buell, who lived at the Powell home. They had been away from the house.

A fire was burning in a gas stove in the room where the body was found, but all of the lids and doors of the stove were in place. The building had not been fired.

In addition to the husband and Mrs. Buell, one brother and three other sisters survive.

PART OF S. A. T. C. IS TO BE DISSOLVED

Men Not Fully Inducted at Indiana University Are Relieved of Their Obligations

ORDER EFFECTIVE NOV. 11

Bloomington, Ind., Nov. 22.—Men students at Indiana university here, who have not been fully inducted into the student army training corps have been relieved of all obligation toward the government and have received permission to withdraw from the organization.

The ruling, which came from the war department at Washington, is to the effect that unless fully inducted by 10 o'clock on the morning of November 11 all students whose papers had not been filled out would thereby be classed as civilians.

With the exception of a few men to care for quarters 50 per cent of the student soldiers will receive a furlough from December 21 until December 26 to celebrate Christmas. The other 50 percent will have passes from December 25 until December 29.

GAME IS CANCELLED

The Rushville high school received word this morning that the medical examiner of the Knightstown high school would not permit the basketball team to come here and play tonight. For that reason the game has been cancelled.

LAFOLETTE WHITEWASHED

(By United Press.) Washington, Nov. 22.—The senate elections committee today voted to recommend that no further action be taken on the resolution for investigation of the speech made by Senator Robert LaFollette, Wisconsin, at St. Paul a year ago.

DRAFT RECORDS WILL BE SEALED

Local Board Ordered Today to Preserve All Data in Connection With Selective Service

NOT SUBJECT TO PUBLIC GAZE

Last Statistical Report to be Made December 10, When Cases Containing Records Will be Sealed

The records covering the operations of the selective draft law in Rush county will become a matter of history, not subject to the gaze of anyone, after December 10. For on that date all records are to be sealed by the chairman of the local board and kept intact subject to further orders from the governor or provost marshal general.

Lengthy instructions were received today from the provost marshal general, providing that the statistical report covering the operations of the draft up to September 11, 1918 shall be submitted as of November 30 and that a similar report dealing with the operations of the draft after the last registration, shall be completed not later than December 10, after which the records shall be sealed.

The Privates Vernace Barrows and Francis Coyne, who are assistants to the local board, completed the first report today and immediately began work on the second report.

Today's instructions provide that no more cases shall be sent to the district board either on appeal or occupation claims and that classification by the local board of such cases not forwarded shall be entered in the records as finally classified. The local board is also ordered not to classify and registrant whose questionnaire is received after December 9.

"All papers and documents received by the local boards after the records are so sealed," say the instructions, "shall be first clearly all plainly endorsed or stamped with the date of receipt, and then placed in a separate file and held until further orders from the governor or provost marshal general."

"Local boards are further directed as follows: Until further direction no further entries or alterations or additions of any sort or kind or description shall be made in records of registrants of the registration of June 5, 1917 and of June 5 and August 24, 1918, save under conditions and instructions to be hereafter given by this office. Records of the registrants of September 12 registration belonging to the 19 to 36 and 18-years age groups shall be made up and continued until their classification work is complete but only and solely in accordance with the normal procedure, after which no more entries, alterations or additions shall be made therein save under conditions and instruction to be hereafter given by this office. Under no circumstances whatever shall local board withdraw or permit anyone to withdraw any papers whatever now in the board files or hereafter placed in such files.

"After the receipt of this order no access shall be given to records of local boards on the part of any person whatsoever not a board member or a member of the clerical force specifically authorized thereto by the board and no information concerning them shall be given out except upon the written instructions of the governor or of the provost marshal general's office. The obligation of the board to keep these records intact and untouched is clear from my recent special instructions on this matter. The provisions of paragraphs two and three hereof are of urgent importance and are imperative.

"A scrupulous observance of the foregoing rules is essential in order Continued on Page Four

Do Not Get Careless With Your Blood Supply

Impurities Invite Disease.

You should pay particular heed to any indication that your blood supply is becoming sluggish, or that there is a lessening in its strong and vital force.

By keeping your blood purified, your system more easily wards off disease that is ever present, waiting to attack wherever there is an open-

ing. A few bottles of S. S. S., the great vegetable blood medicine, will revitalize your blood and give you new strength and a healthy, vigorous vitality. Everyone needs it just now to keep the system in perfect condition. Go to your drug store and get a bottle to-day, and if you need any medical advice, you can obtain it without cost by writing to Medical Director, Swift Specific Co., 25 Swift Laboratory, Atlanta, Ga.

INCREASE IN TODAY'S LIST OF CASUALTIES

War Department Lists 14 Killed in Action and 13 Prisoners Out of 1514 Men

RUSHVILLE BOY IS DEAD

Washington, Nov. 22.—One thousand, five hundred and fourteen names were listed in today's casualties from the War department, of which there are 14 killed in action; 395 wounded (degree undetermined); 378 wounded slightly; 88 died of wounds; 11 died of accident and other causes; 1 died of airplane accident; 105 died of diseases; 87 wounded severely; 13 prisoners.

The Commanding General of the American armies reported that there are eighteen Hoosiers in the casualties for today as follows:

Died of wounds—Private James Joseph Shanahan, Rushville.

Died of disease—Private George E. Nelson, Tell City.

Wounded severely—Corp. Wagoner Marshal E. Ward, New Lisbon; Private Clarence E. Baxley, Corydon; Private Russell B. Davis, Ramsey; Private Karl O. Schmid, Indianapolis; Private Orben Moon, Michigan City.

Wounded slightly—Private Frank R. Huntington, Greengrove; Private James Gorton, Terre Haute; Lieut. Dewitt E. Mullett, Columbia City; Corp. Oscar Leigh Rollyson, Union City; Private Dale Bibler, Peru.

Missing in action—Private Robert R. Knox, Petersburg.

Killed in action—Lieut. Harry H. Marsh, Burnetts Creek.

Wounded, degree undetermined—Private Frank J. Gill, Indianapolis; Private Delbert Earl Moore, Martinsville; Private Frank Ricci, Mar-

ian; Private Thomas Moore, Mount Vernon.

The official report that James Shanahan, whose name is given in the above list, was dead of wounds received in action October 16, was received here by his father, James Shanahan, Sr., last Friday.

TO CLOSE SUNDAY EVENING

Last of Lecture Series at Catholic Church to be Given Tonight

The Mission services that have been held in the progress through the week at the St. Mary's Catholic church will come to a close on Sunday evening. The last regular lecture of the series will be given tonight, as there will be no services on Saturday night.

The forceful eloquence of the Rev. M. J. Ripple, who is conducting the services has made a deep impression on the members of the congregation as well as the many others, who have been in attendance. Last night a congregation which filled every seat in the church heard a masterful exposition of the doctrine of the sacrifice of the mass. The subject of this evening's lecture is "Charity."

J. C. RYAN RESIGNS

Washington, Nov. 22.—John C. Ryan, second assistant secretary of war and director of the air service, has sent his resignation to Secretary of War Baker, effective as convenient.

TO KEEP HANDS OFF

Washington, Nov. 22.—That the war department will keep hands off in the matter of universal military training unless asked specifically for its version, was the opinion in general staff quarters today.

FOR ARMENIAN RELIEF FUND

Collection at Thanksgiving Service Will be Devoted to This Cause

The collection at the annual Thanksgiving services next Thursday will be devoted to the Armenian relief. The county has contributed at various times to this worthy cause, but has never given what it was felt should be raised here.

The annual union services will be held in the evening at 7:30 o'clock, this year, instead of in the morning, as has been the custom in the past. The Rev. C. J. Donnell of the First Baptist church will preach and the meeting will take place at the Main Street Christian church.

ARE FINED FOR PROFANITY

Happy Bever and Stanley Stewart Plead Guilty in Court.

Happy Bever of New Salem and Stanley Stewart were each fined \$1 and costs in the circuit court yesterday when they pleaded guilty to an affidavit charging profanity. Bever gave replevin bail for a stay of judgment. Both men were arrested several weeks ago.

The case of the state against William Garrigus of Crawfordsville, formerly C. I. & W. freight agent here, who is accused of embezzlement, was continued on the motion of the defendant.

MESSAGE TO KING ALBERT

President Sends Congratulations on His Entrance to Brussels

(By United Press.)

Washington, Nov. 22.—Congratulations upon King Albert's return to Brussels were sent by President Wilson today as follows:

"At the moment that you re-enter Brussels at the head of your victorious army, may I not express the great joy that it gives to me and to the American people to hail your return to your capital, marking your final triumph in this war which has cost your nation so much suffering, but from which it will arise in new strength to a higher standing."

MANIFESTO TO THE PEOPLE

Lloyd-George and Law's Announce Points For a Lasting Peace

(By United Press.)

London, Nov. 22.—Premier Lloyd-George and Chancellor Bonar Law have issued a manifesto on the coming election, favoring as the chief points of a lasting peace: reduction of armaments; promotion of a League of Nations; pensions for soldiers; colonial preference in trade; reform in the house of lords; sex equality and renewed effort to settle the Irish question.

CHIROPRACTIC

The ONLY science ever discovered for eradication of disease by going directly to the cause. If your case is chronic and have tried everything else without satisfactory results, why not investigate

Chiropractic

the science of common sense applied to the human machine—not medicine, not surgery, not osteopathy.

Mid-Season Clearance

Friday, November 22nd to Saturday, November 30th

There's no dodging facts—we've been hit by the unseasonable weather which prevailed during the entire Fall season to say nothing of the influenza epidemic. Our various departments—particularly the section devoted to women's apparel are still crowded with merchandise which has not been moving on account of the unusually warm weather. We've full twice as much Fall and Winter merchandise on hands as we should have. We must get out from under, we must sell this merchandise at once, or else we must face the necessity of carrying it over into another season—a thing never done here. In order to get out from under we have sacrificed profits with reckless prodigality. Clearance is what we want, and clearance is what we will have regardless of the losses involved.

Silk Lingerie

A splendid showing of flesh color Silk Lingerie as practical as they are lovely. As a gift offering or for personal use one could not choose more happily.

Subscribers to the Daily Republican whose papers are cut off may know that they are in arrears on their subscriptions because a ruling of the pulp and paper section of the war industries board provides for not sending newspapers after the date of expiration of subscription unless the subscription is renewed and paid for.

No Place for German-made Goods

That the arrival in New York of 10,000,000 pounds of toys, every piece said to bear the words "Made in Germany," may possibly set a precedent for a flood of German goods to be sent into this country from neutral countries on the plea that they are no longer owned by citizens of Germany, is the contention of Richard M. Hurd, chairman of the Boycott Committee of the American Defense Society. In a statement made public at the national

Sap and Salt

By BERT MOSES

When taking castor oil, take enough.

Many men who talk truth do not tell it.

A gentleman is a man who never claims to be one.

With coal at its present price, think of the fuel bill in hell!

To be able to tell a big thing from a little thing is the distinguishing mark of greatness.

It is difficult to determine whether women's dresses are intended to conceal or reveal their figures.

I know of no waste quite so conspicuous as that exhibited by a pretty woman when she kisses a small boy.

headquarters of the society, he says:

This huge shipment of toys bearing the abominated words "Made in Germany," arrived in New York on Wednesday on board the steamship Nieuw Amsterdam, of the Holland-American Line, which made the voyage from Rotterdam under guarantee of safety by the German Government. It is reported that the Government officials at Washington admitted this importation on the ground that the toys were bought and paid for before the United States declared war on the Huns, and have been in storage in Holland for the past two years.

It is my sincere hope that this will not set a precedent for a flood of German goods to be sent into this country from neutral countries on the plea that they are no longer owned by citizens of Germany and, hence, that the money paid for them does not directly help Germany. The indirect help to Germany is entirely obvious in that if the United States absorbs German products now held by neutrals, they will leave a vacuum in neutral countries into which Germany can dump her products immediately after the end of the war, or even today. This is one of Germany's strategic moves in her war for economic world domination, the plans for which have gone, on steadily, despite her unfavorable military situation.

Shall American babies handle toys made by the baby-killers of Germany? Americans should never forget that the present war is only a part of Germany's plan to dominate the world commercially, and that even if she fails to gain territorial enlargements, she has won the war if she emerges from it in a stronger economic position. All Germany's actions in the war have taken the commercial factor into consideration; the destruction of Allied and neutral merchant ships is aimed to leave Germany, after the war, the water carrier of the world; in Belgium and Northern France, the removal of machinery, the destruction of factory buildings and the deportation of trained factory operatives is aimed to remove industrial competition.

After the war Germany, filled with stolen machinery, with her own buildings and lands untouched, with raw materials already ordered from all parts of the world, would soon be in a position to supply the world with cheap German goods while the Allied countries are rebuilding their industrial plants and transportation facilities.

Could anything be more repulsive than to put into the hands of American children toys made by the German hands which drip with the blood of countless innocent non-combatants. It is the legal individual right of every American citizen to make such careful inquiry as shall prevent their consciously purchasing these toys, if they be minded so to do.

Pot and Kettle.

Excellent is the motive which animates the periodical agitations against the morals of the members of our fighting forces. There is a hardy tradition that soldiers and sailors are licentious, and neither novelists, poets nor dramatists would have it otherwise.

Since Virgil sang the sack of Troy the epic and the romance have always depicted victorious soldiers as ravishers, lechers and libertines. War stories would lose half their

appeal and punch if these elegant characteristics were removed from the legions that people the pages. And more of us get our ideas from story-books than from compiled statistics.

Statistics, however, have recently shown that disease resulting from immorality is not as prevalent in the army as among men in civil life. It will, therefore, be more logical to start worrying about the morals of the soldiers now that the armistice has been signed and the armies disbanded. The members will then be scattered among dissolute civilians like ourselves, and will learn all our bad habits.

Or they might—and quite justifiably—decline to associate with vicious reprobates like us until we promised to reform.

Nothing is more necessary to the effectiveness of our forces than the maintenance of high standards, and the authorities, aided by the Y. M. C. A. and other worthy institutions are devoting ceaseless vigilance to this essential. It is therefore incumbent upon those of us who are not with the colors to keep our own house clean, and to avoid the scandal of standing disgraced by comparison with those whom we would presume to edify by pontifical attitudes and apostolic posturing.

It is reported that President Wilson will sail on the Agamenon, formerly the Kaiser Wilhelm II, of the North German line, when he leaves for the peace conference, and that he and Mrs. Wilson will occupy the imperial suite, once used by the former kaiser when cruising on that vessel. If the president were the least bit superstitious, he would steer clear of that imperial suite.

Perhaps swords will soon be beaten into plowshares. During the peace celebration we certainly saw wash boilers and garbage cans beaten into producers of infernal sounds.

For months the German army will have nightmare dreams of running at its topmost speed while dreadful Americans on motor trucks pursue it.

Don't let us be tempted into any extravagance by the thought that the war is over. Our boys must still be supported abroad; they must gradually be brought back; they must be returned to civilian life by degrees. There will be another Liberty loan. We must be ready for it.

In 1917 the British patent office received 253 applications for patents from women.

WEAKNESS REMAINS LONG AFTER Influenza

Reports Show That Strength, Energy and Ambition Return Very Slowly to Grippe Patients.

After an attack of influenza, doctors advise that nature be assisted in its building-up process by the use of a good tonic—one that will not only put strength and endurance into the body, but will also help to build up and strengthen the run-down cells of the brain.

One of the most highly recommended remedies to put energy into both body and brain is Bio-feren—your physician knows the formula—it is printed below.

There's iron in Bio-feren—the kind of iron that makes red blood corpuscles and creates vigor. There is lecithin also; probably the best brain invigorator known to science. Then there is good old reliable gentian, that brings back your lagging appetite.

There are other ingredients that help to promote good health, as you can see by reading this formula, not forgetting kolo, that great agent that puts the power of endurance into weak people.

Taken altogether Bio-feren is a splendid active tonic that will greatly help any weak, run-down person to regain normal strength, energy, ambition and endurance.

Bio-feren is sold by all reliable druggists and is inexpensive. For weakness after influenza patients are advised to take two tablets after each meal and one at bed time—seven a day, until health, strength and vigor are fully restored.

It will not fail to help you and if for any reason you are dissatisfied with results your druggist is authorized to return your money upon request—without any red tape of any kind.

Note to physicians: There is no secret about the formula of Bio-feren. It is printed on every package. Here it is: Lecithin; Calcium Citrate; Phosphate; Iron Peptonate; Magnesia; Potassium; Salt. Bio-feren is sold by all reliable druggists and is inexpensive. For weakness after influenza patients are advised to take two tablets after each meal and one at bed time—seven a day, until health, strength and vigor are fully restored.

WITHDRAW THEIR APPEAL

Vannatta and Sorrell Pays Fines For Liquor Law Violation

Albert Sorrell and John Vannatta this afternoon withdrew their appeal from the decision of Mayor Irvin in the state cases against them for violation of the state prohibition law and paid their fines of \$50 and costs each. They were also given jail sentences of thirty days, which were suspended, last Tuesday evening, when the mayor returned a decision after having heard the evidence last Friday evening. Jesse Guire, who was arrested on the same offense, paid his fine without appealing to the circuit court. All three were arrested Thursday night, October 31, as they got off of a train, coming from Hamilton, O., with whiskey in their possession.

UNITED WAR WORK DRIVE STILL LAGS

Continued from Page One

998.89; Center, \$1,543.80 and Union, \$252.

It is evident that only two of these townships are anyway near their quotas. Two of them have been canvassed completely, but too many people evidently escaped with small contributions than they should have made.

Many instances have come to light of rare sacrifices made in this campaign, but there have been more where persons of wealth have either hidden behind a flimsy excuse to avoid giving, or have been allowed to escape with a contribution not in proportion to their ability to give.

A case is cited of a Rushville woman who is dependent solely on her son, who is working in another city, for her support. The canvasser called just after she had received her weekly allowance of \$10. She showed her patriotism by dividing it with the canvasser.

In another instance a Rushville man wanted to give \$100 and he was allowed to contribute only \$50 because the solicitors knew he could not afford it.

It is also related that the assessment of a woman, with a small farm who lives in one of the districts outside of Rushville, was assessed \$2.96 as her share of the quota in that district. She wrote out a check for the amount, but the solicitors saw the conditions and her willingness to do her share; so they tore up the check and contributed \$1.50 each themselves.

DRAFT RECORDS WILL BE SEALED

Continued from Page One

that the records themselves shall not be vitiated and in order that the local boards shall be protected against the importunities or registrants and against serious charges to which any other course would lend color and might give substance. The powers of the local boards in dealing with this situation may be gathered from recent instructions concerning penalties attached to mutilation, alteration or destruction of records.

"The proper and just administration of the War Risk Insurance Act and of future pension laws of the country will, in many cases depend almost exclusively upon data contained in these records which will likewise have a vital relationship to charges of desertion and delinquency involving the honor of thousands of registrants. In addition to the foregoing, it is from these records that the history of this war must in good part be compiled, and from them also must come information of the last value as to man power in case of any future war. For these reasons it is a matter of the highest patriotic duty on the part of the whole board from which no board member can escape, to see to it that these records are kept absolutely true and intact."

ASSISTED IN EPIDEMIC

In addition to those mentioned in the report yesterday, the following supplied their cars to the Red Cross for use during the epidemic of influenza in taking nurses from home to home and delivering soup: Mrs. Cora Dillon, Miss Ailene Budd, the Misses Elizabeth and Florence Gronier, Miss Marian Sparks and Owen L. Carr. About 300 persons were provided with hot soup during the epidemic.

COMING LEGISLATURE 'DRY'

State Will be Added to Those Indorsing National Amendment.

Indianapolis, Ind., Nov. 22.—The coming legislature will be "dry" by a large majority according to figures that the state will be added to those which have indorsed the national prohibition amendment is practically assured. That both branches will favor prohibition by a three to one proportion was the declaration of E. S. Schumaker superintendent of the Indiana Anti-saloon League.

NOTHING ELSE TO GIVE

The following concerning Miss Dove Meredith, formerly of this city, who was at one time employed in the Indianapolis News office, appeared in the News:

Miss Dove C. Meredith, court reporter in Room 2, superior court, was one of the first people to obey the health order to don masks. As she did so she wrote the following lines:

How can you wear it? Why do you ask?
 And how can you grin at my flu mask?
 We've given our money at all times and places.
 And now we are asked to give up our faces.

15 EGGS A DAY FROM 23 HENS, IN WINTER

Winter, Until He Tried This Plan. Mr. Duni's Hens Hadn't Laid All

"We have 23 chickens and hadn't had an egg all winter. In five days after feeding Don Sung, we got four to five eggs a day; in three weeks, we were getting 10 to 12 eggs a day; in five weeks we got 15 to 19 eggs a day."—John Duni, Box 102, Cherry Valley, Pa.

Mr. Duni started giving his hens Don Sung last January in zero weather. He now keeps his hens busy in cold weather, when hens usually stop laying. A trial costs nothing. Here's our offer:

Give your hens Don Sung and watch results for one month. If you don't find that Don Sung pays for itself and pays you a good profit besides, simply tell us and your money will be refunded.

Don Sung (Chinese for egg-laying) works directly on the egg-laying organs, and is also a splendid tonic. It is easily given in the feed, improves the hen's health, makes her stronger and more active in any weather, and starts her laying.

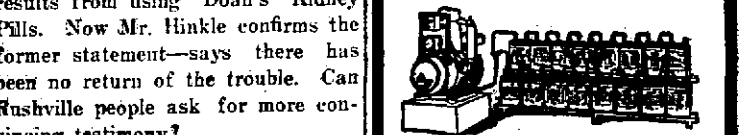

Try Don Sung for 30 days and if it doesn't get you the eggs, no matter how cold or wet the weather, your money will be promptly refunded. Call at our store today for a 50c or \$1.00 package.

Amusements

Tonight is your last opportunity to see Douglas Fairbanks in his latest picture, "Bound in Morocco," which will be shown at the Princess theatre. An extra attraction is Mack Sennett's comedy, "Ladies First," and the "Allied War Review." Saturday Alice Joyce will appear in "The Highest Bidder," and Charles Murray in "Love Loops the Loop." Alice Brady comes Monday in "The Death Dance."

FOR STUBBORN COUGHS AND COLDS

Dr. King's New Discovery
has a fifty year record behind it
"It built its reputation on its production of positive results, on its sureness in relieving the throat irritation of colds, coughs, grippe and bronchial attacks."
"Dr. King's New Discovery? Why, my folks wouldn't use anything else! That's the general nation-wide esteem in which this well-known remedy is held. Its action is prompt, its taste pleasant, its relief gratifying. Half a century of cold and cough checking. All druggists. 60c and \$1.20."
Bowels Out of Kilter?
That's nature calling for relief. Assist her in her daily duties with Dr. King's New Life Pills. Not a purgative in the usual dose, but a mild, effective, corrective, laxative that teaches the bowels into action. 25c.

TEN CENTS A DAY MORE PAY

Paris, Nov. 22.—A law published here increases by 10 cents the daily pay of private soldiers and corporals in the French army. Half of the increase is paid to the soldiers and the other half placed to their credit in savings banks.

FACTORY BLOWN UP

(By United Press.)
Amsterdam, Nov. 22.—Two hundred persons were killed by an explosion in a factory in Cologne, following the failure of revolutionists to induce the workmen to strike according to reports received here today.

Social Calendar

Saturday

Mrs. Rush Budd will entertain the members of her Sunday school class at her home in North Harrison street tomorrow afternoon.

Miss Frances Frazee will be hostess this evening at her home in North Main street for the members of the Epworth League cabinet.

The Rev. and Mrs. Clyde S. Black entertained today with a pitch-in-dinner in honor of Mrs. Black's birthday. Covers were laid for the following guests: Mr. and Mrs. J. H. Hammond, Mr. and Mrs. Thomas Innis, Mr. and Mrs. Frank Mock and Miss Maude Young of Milroy.

A very quiet wedding was solemnized yesterday at the Methodist parsonage when Andrew Walls and Mrs. Anna Lindsey, both of this city, were united in marriage, the Rev. Clyde S. Black conducting the ceremony.

Mrs. Elizabeth Dill entertained yesterday with a prettily appointed dinner party at her home. The table was adorned with a bouquet of chrysanthemums, where the dinner was served. The guests for the occasion were Mrs. Carl Scott and Mr. and Mrs. James Dill.

Mrs. Elmer Humes will be hostess tomorrow afternoon for the members of the War Mother's club at her home in North Harrison street.

Professor W. E. Jenkins, who was to speak to the members of the Shakespeare club and their guests Monday night, finds it impossible to come and will deliver his first lecture of the series, "The South of Europe," December 4, instead.

The members of the Daughters of the American Revolution held their first meeting of the season yesterday afternoon at the home of Mrs. H. V. Logan. During the busi-

Mrs. Rush Budd, 601 North Harrison street, hostess for her Sunday school class in the afternoon.

War Mother's club in the afternoon, with Mrs. Elmer Humes, 704 North Harrison street.

ness meeting the society decided to support two French orphans, after which a very interesting program was given with Miss Mary Logan, who is a Missionary from India, speaking to the members. Mrs. Lincoln Gary gave an instructive reading.

Mrs. Amos Baxter was hostess yesterday afternoon for the members of the Yomo club at her home in West Seventh street. A very enjoyable afternoon was spent in knitting and needle work.

Mrs. John Jordan entertained the members of the Home Missionary society of the St. Paul's M. E. church yesterday afternoon. The society has planned to pack a barrel Monday afternoon at the home of Mrs. Raymond Hargrove, to be sent to the Deaconess home at Indianapolis. All members who can contribute some fruit, may either bring or send it to Mrs. Hargrove or any of the officers. A collection of \$45.35 was taken for their thank offering and part of the members did not bring their offering. After the business meeting was finished a program was given, with Mrs. Foster Miller and Mrs. R. F. McClanahan reviewing the study book. Mrs. Clint Bodine was in charge of the devotional exercises.

COMING NEXT WEEK

D. E. Roberts piano tuner will be in Rushville next week. Leave your order at Abercrombie's Jewelry Store.

M. E. CHURCH TO HOLD A CONFERENCE HERE

Pastors and Laymen of Ten Congregations to Gather in Rushville Monday.

TO DISCUSS CENTENARY PLANS

A training conference for the centenary campaign of the M. E. church will be held at St. Paul's church next Monday, with sessions both morning and afternoon. The purpose of the conference, which will include pastors and laymen from ten Methodist churches in this vicinity, is to make detailed study of the organization of charges and to lay plans for the centenary drive, which will be conducted for the purpose of celebrating the one hundredth anniversary of the founding of missions in the Methodist church. The church expects to make an offering of \$80,000,000 in five years, which will be divided equally between the home and foreign fields.

Dr. J. N. Walker of Connersville, district superintendent, will be in charge of the conference and pastors and laymen from the churches at Shelbyville, Waldron, Milroy, Clarksburg, Richland, Carthage, Arlington, Morristown and New Palestine in addition to the St. Paul's church.

For the educational campaign, leading up to the centenary, laymen will be organized as minute men to make five minute speeches at church services. Judge Will M. Sparks has consented to act as chairman of the Rushville group which consists of the churches at Carthage, Arlington, New Palestine, Morristown and Rushville. It is planned to have 1,000,000 minute men at work.

Chris and Clifford King donated to the Red Cross seven and a half bushels of different varieties of apples, which were sold at auction yesterday at the W. R. Vansickle sale, bringing \$30.

HEALTH BOARD HAS NEW INSTRUCTIONS

They Govern Sanitary Management
and Conduct of All Food
Handling Establishments

ALSO THE SODA FOUNTAINS

Employees of Such Establishments
Are Required to Furnish a
Medical Certificate

The city board of health is in receipt of rules governing the travel of venereally infected persons and the sanitary management and conduct of restaurants, cafes, soda fountains, and all food handling and food producing establishments, which were passed by the state board of health at its October meeting.

These rules have been promulgated as required by law, copies being furnished to all health officers, judges, prosecuting attorneys and county auditors. They are now in full effect and have the same force as law.

The rules to prevent the spread of venereal diseases provide that no person having a venereal disease shall move or be moved from one health jurisdiction into another without first obtaining permission to do so from the local health officer, of the place from which the removal is to be made, or from the state health commissioner. Other restrictions are thrown about movements of persons so afflicted in order to safeguard the health of the people of Indiana.

The instructions to proprietors of all hotels, restaurants, cafes and eating houses provide that such places shall be kept in a sanitary condition by keeping the kitchen well lighted and ventilated and the floors well scrubbed. All kitchen utensils must be thoroughly washed at least once a day and all refrigerators must be well cleaned at least twice a week.

Utensils used in serving food or drink must be cleaned and rendered free from injurious contamination after each separate use, according to the instructions, which set forth the methods to be used to make sure that these orders are followed.

It is also stated that all garbage must be kept in closed containers, securely protected from flies, and that the yard about the place must be free from filth or waste material of any kind.

"All employees or other persons engaged in any way in handling, preparing or serving food or drink, must furnish a medical certificate as required by the rules of the state board of health," the instruction says.

The rules laid down for proprietors of soda fountains and ice cream parlors are very similar in that they provide for the thorough daily cleaning of the soda fountain and all containers as well as all

PHOTOGRAPHS OF STATE'S WAR WORK

Committee on Photographs Wants
Pictures of Local Troops Departing
for Camps.

LIBRARY FORCES INCLUDED

To Collect Views Showing all War
Activities in State, Haste is
Urged

Indiana's part in the great world war will be recorded with appropriate photographs now being compiled by the Indiana State Committee on War Photographs, nominated by George Graham Hallows, of Terre Haute, whose selection for the task by the Indiana State Council of Defense has been approved by the Historical Branch of the War Department. As a part of the committee, the library force of Indiana are represented by Demarens C. Brown, of the state library. Other members of the committee are as follows:

Charles P. Bretzman, Indianapolis; Ed. F. Perry, Ft. Wayne; C. A. Shubert, Princeton; Ben Larimer, Marion; K. K. Knecht, Evansville and Paul Shideler, Indianapolis.

The instructions issued to the committee by Major Kendall Banning, of the Pictorial Section direct that pictures be collected of local troops departing for training camps; activities of war relief societies; Red Cross work and food administration activities; arrests of aliens and suspects; destruction of property attributable to alien influences; sales of government securities; drilling of home defense military organizations, entertainment for troops and photographs of local commissions, draft boards and committees engaged in public service in connection with the war. In brief, the committee is to prepare and submit photographs showing all war activities in the state, with short captions.

It is the purpose of the committee to make haste in its work in order to prevent many photographs of public interest and value drifting into private collections or being lost.

County councils of defense have been requested by the state council to co-operate in the work, in order that Indiana's photographic history may be complete, and representative.

utensils, such as glasses, dishes and spoons. The rules say that after such receptacles and implements have been washed in fresh hot water and inverted on a draining board to dry, they shall then be treated with live steam, boiling water or dry heat.

Paper receptacles may be used, the rules say, providing they be kept in a sanitary manner, thoroughly protected from injurious contamination and used only once. Straws used for drinks must be individually wrapped or where loose, kept in covered receptacles, protected from the dirt, dust and flies. All bowls for fresh fruit or other food material must be provided with close fitting covers. It is also stated that employees of this class of establishments must furnish a medical certificate.

Decide NOW what you SHOULD
GIVE to the United War Work Fund.

Acid-Stomach Victims Sickly, Weak, Unfit, Depressed

Maybe you have an acid-stomach—don't know it? There are millions of such people—weak, ailing, tired, worn out and "all in" before the day is half gone—listless and indifferent to their surroundings—often with aches and pains all over the body—trouble in sleeping, loss of physical power and mental vigor—pale, emaciated—just dragging out a weary existence. Nine out of every ten of these people are unconscious victims of acid-stomach.

Thousands upon thousands of people who are subject to attacks of indigestion and biliousness; who are nervous, melancholy, mentally depressed; who suffer from rheumatism, lumbago or sciatica—yes, even many of those who have catarrh, ulcer or cancer of the stomach—if the trouble is traced to its source, it will often be found to be just acid-stomach. For these are only some of the ailments that are caused by what the doctors call "hyperacidity," which is another name for sour or acid-stomach.

What you want to know above all else is how to quickly rid yourself of excess acid. A wonderful modern remedy called EATONIC literally wipes it out. It does the work easily, speedily and naturally. It makes the stomach pure, sweet, cool and comfortable. It helps you get full strength out of every mouthful of food you eat; and unless you DO get full strength from your food you cannot enjoy robust, vigorous health. You eat to LIVE. Your life depends on the strength you get from your food. There is no other way.

EATONIC is in pleasant-tasting tablet form—just like a bit of candy. We urge you—no matter what you have tried—take Eatonic just one week and find out for yourself how wonderfully improved you will feel. See how quickly EATONIC banishes the immediate effects of acid-stomach—bloat, heartburn, belching, food-repeating, sour, gassy stomach, indigestion, etc. See too, how quickly your general health improves—how much more easily it is digested—how soundly you sleep—how nervousness and irritability disappear. And all simply because by taking EATONIC, you have rid your stomach of a lot of excess acid that has been holding you back and making your life miserable.

EATONIC is absolutely harmless. It can be taken by the most delicate. Tens of thousands of people who have used it are enthusiastic in its praise.

This wonderful modern remedy is absolutely guaranteed so you run no risk in giving it a trial. Obtain today—a big 50c box with our positive guarantee that if you are not pleased in every way, you get your 50c back. You know your drug-gist—and you can safely trust him to make this guarantee good.

Intestinal and Stomach Worms

are the most common of hogs and pigs and they multiply very fast. It is easy to tell the pig that is loaded with worms. The hair is rough, has little or no appetite, coughs more or less and goes backward every day. Thousands of pigs and hogs die from worms every year. This can all be prevented by feeding ACME WORM BOUNCER from birth to maturity.

OFFICIAL LIMITS FOR TIME ZONES

Fixed by Interstate Commerce Commission Under Terms of Daylight Saving Law

CHANGES EFFECTIVE JAN. 1

Charges Unify Existing Lines and Move Them Slightly Westward, It is Announced

Washington, Nov. 22.—New and official boundaries for time zones in the United States, unifying existing lines and moving them slightly westward, have been announced by the interstate commerce commission to become effective at 2 a. m. January 1, next. The order is pursuant to the daylight-saving act, which in addition to authorizing an advance of the clock during the summer, provided for permanent United States standard time and required the commission to define the limits of the standard time zones which previously had been fixed only by custom of cross-continent railroads or by local law.

The line fixed by the commission separating the eastern and central time zones, beginning at the Great Lakes follows the boundary of Michigan through Toledo, Fremont, Clyde, Bellevue, Monroeville, Willard, Shelby Junction, Mansfield, Galion, Marion, Columbus, Lancaster, Dundas and Gallipolis, O.; Huntington, Kenova and Williamson, W. Va.; Dungannon, Va.; Bristol, Va.; Tenn.; Telford, Tenn.; Ashe-

JOE CLARK

PHONE 2155

EAST FIRST STREET

ville and Franklin, N. C.; Atlanta, McDonough, Macon, Perry, Americus, Albany and Thomasville, Ga.; the north boundary of Florida river to River Junction and the Apalachicola river to the gulf of Mexico.

Between central and mountain time the line begins at the Canadian boundary, Portal, N. D., running through Minot, Goodall, N. D., and following the Missouri river to Pierre, S. D., then through Murdo, Mackenzie, S. D., Long Pine, North Platte, McCook and Plainville, Ellis, Dodge City and Liberal, Kas.; Waynoka, Clinton and Sayre, Okla.; Sweetwater, Big Springs and San Angelo, Tex., and the 100th meridian to the Rio Grande river.

Between mountain and Pacific time zones the line is fixed following the eastern boundary of the Blackfoot Indian reservation in Montana, and the continental divide, to Helena, Butte and Dillon, Mont.; Pocatello, Ida., and the Oregon Short Line to Ogden and Salt Lake City, Utah; thence the Los Angeles & Salt Lake railroad and the west and south boundaries of Utah to the 113th meridian; thence to Seligman and Parker, Ariz., and along the Colorado river to the Mexican boundary.

All Alaska is left within one time zone, the commission deciding that it can not deal with this matter, nor with the omission of the Hawaiian islands from the terms of the daylight saving act.

RESTRICTIONS ON ROAD WORK REMOVED

Highway Council Announces no Further Application for Approval of Highway Projects Necessary

NO PROGRAM FOR YEAR

Washington, Nov. 22.—The United States Highways Council announced that no further applications need be made to it for approval of highway projects, that previous disapprovals are revoked, and that pending applications require no further action.

Procedure in securing materials and transportation should follow normal practices, officials of the council said.

The removal of restrictions does not affect highway bond issues, which are under control of the Capital Issues Committee.

State highway departments will not be asked to submit programs for next year's work.

War Hints — War Helps — War Duties

(Compiled and condensed for the Indiana State Council of Defense by George Ade.)

Well, we celebrated a little and now, if we have calmed down, there are a few important facts which we need to repeat to ourselves, over and over. The responsibilities we have assumed in connection with the war will not be lifted even when peace is established. The WAR WORK campaign, which is under way this week, must be carried through to a successful issue because our soldiers will remain in the field and their welfare must still be our daily concern. Food must still be conserved. All of our war-time economies must be practiced until we begin to arrive back at normal conditions. By that time economy will have become a habit and the lessons of thrift will have been learned by every household, and we will emerge from the ordeal strengthened for all of the hard tasks of reconstruction.

The destitute must still be clothed. The hungry ones cannot subsist entirely on good news. The soldiers will be far from home on Christmas. The debts we have assumed remain as rugged realities.

Mr. Hoover says, "Peace or no peace, war or no war, keep on saving food."

The Indiana State Council of Defense commends the work being done by the organization known as "The Fatherless Children of France." One way of showing gratitude to France is to adopt a French orphan.

The directions for sending Christmas boxes to soldiers and sailors are so lengthy to be repeated here, so inquire of your local Red Cross. Don't forget the boys at the front.

The coal situation is not as bad as many people feared it would be but, just the same, save fuel.

NAMES CARLISLE MAN

Indianapolis, Ind., November 21—Governor Goodrich has appointed David N. Curry of Carlisle, as the Democratic member of the legislative visiting committee to take the place of Samuel Benz, of English, who was appointed but is unable to serve because of ill health.

LET THESE COLUMNS BE YOUR GUIDE

The Biggest Money-Maker on the Farm

Every good farmer MUST have a plow, a cultivator or a wagon and some other things. He cannot raise a crop without a plow, but he can raise a crop, such as it is, without a manure spreader.

All farmers buy plows, cultivators and wagons because they have to, just as the small boy goes to school because he is compelled to.

When a boy grows big so he knows the value of schooling, he goes because he wants to. When a farmer grows big to know the value of a manure spreader and how many more bushels it will make each of his acres produce, he buys it, not because he is compelled to, but because he knows it is the best money-maker he can put on his farm.

If our country demands more food, if we must feed besides the people of our own United States, many of the peoples of the belligerent countries, our duty is plain—we must make every acre produce to its limit. There is no machine that will increase the otherwise normal output of any acre of ground as much as the manure spreader. There is no machine made today that will INCREASE the food production of this country as will the spreader. There is no manure spreader made that will come nearer the ideal or perfect machine than the RUSHVILLE SPECIAL Spreader you will find on our sample floor. Come in and see it.

BAD BREATH

Dr. Edwards' Olive Tablets Get at the Cause and Remove It

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work.

People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous calomel does without any of the bad after effects.

All the benefits of nasty, sickening, gripping cathartics are derived from Dr. Edwards' Olive Tablets without gripping, pain or any disagreeable effects.

Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowel and liver complaint, with the attendant bad breath.

Dr. Edwards' Olive Tablets are purely a vegetable compound mixed with olive oil; you will know them by their olive color. Take one or two every night for a week and note the effect. 20c and 25c per box. All druggists.

TO DARKEN HAIR APPLY SAGE TEA

Look Young! Bring Back Its Natural Color, Gloss and Attractiveness.

Common garden sage brewed into a heavy tea with sulphur added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get a bottle of Wyeth's Sage and Sulphur Compound at any drug store all ready for use. This is the old-time recipe improved by the addition of other ingredients.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and, after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.

This preparation is a delightful toilet requisite and is not intended for the cure, mitigation or prevention of disease.

FOOD POISONING

By Dr. J. M. Hurty

(State Health Commissioner)

Every body has heard of food poisoning, yet few understand how food may poison one; and few know how frequently it occurs. Be it known then that food poisoning of greater or less degree happens daily in every locality. Some there are who continually suffer from chronic food poisoning and who drag out a miserable existence in consequence.

Gas or flatus with abdominal distention, is food poisoning, that is frequently attendant upon gorging, or because of an unbalanced diet. There are few persons indeed who have not experienced gastro-intestinal attacks of moderate severity which they attribute to something eaten shortly before. It is often possible to name with certainty the offending food. When the attack is more than ordinarily serious, neighbors hear of the sickness (poisoning) and when a number of persons are affected simultaneously, the papers almost certainly print the fact. Most attacks of food poisoning are usually slight and recovery early and so are considered negligible or of trivial importance. Later, the victim is disabused of this idea when headaches, biliousness, dizziness, spots before the eyes, muscular pains, roaring in the ears, sweaty hands and feet and other uncomfortable symptom appear. Not only food poisoning brings about degenerative changes in the kidneys or blood vessels. Indeed, very many kidney and liver diseases result from repeated or perhaps almost daily food poisoning. Eczema is caused by food poisoning. It is really funny to him who knows this, to hear people ask in a drug store for salve or lotion to cure eczema, when the only cure is to correct the diet. Here, surely, is a change to throw physic to the dogs, and then eat sensibly.

Many cases of food poisoning proceed from bacterial poison (ptomaine) which have been generated in meat and fish dishes which have been kept a few hours. If any one wishes to have practical experiences with ptomaine poisoning, it is a simple matter. Their wish may be indulged by preparing from good materials some salmon or chicken salad, keep for twelve or fifteen hours in a refrigerator which is extra clean, and then eat the stuff. And again, you may get an equal result by gorging with any meat salads. In the last instance (gorging), the poison making microbes, always in meats, elaborate poisons in the intestines, the opportunity being afforded because the gorging hinders or overcomes a digestive processes. Where digestion is vigorous and food is taken in moderation, poison making microbes have no chance. Here is the physiological argument against gorging.

Food poisoning let us call it immoderate eating, especially of meats—is given as the cause of the reduced expectancy of life in the United States. It is also one cause

ACHES AND PAINS QUICKLY RELIEVED

You'll find Sloan's Liniment softens the severe rheumatic aches

Put it on freely. Don't rub it in. Just let it penetrate naturally. What a sense of soothing relief soon follows!

External aches, stiffness, soreness, cramped muscles, strained sinews, back "cricks"—these ailments can't fight off the relieving qualities of Sloan's Liniment. Clean, convenient, economical. Ask any druggist for it.

Sloan's Liniment
Kills Pain

30c, 60c, \$1.20

of our reduced strength. The average strength of the early pioneers who lived on simple foods, sometimes scanty, was greater than the present average. Malaria played havoc even with the strong men of that day, but the same amount of malaria poison introduced into the present stock would certainly exterminate it.

A sum up of the whole matter is—foods with poisons formed in them before they are eaten, cause not a little poisoning, but by far the greater amount of food poisoning follows immoderate eating, especially immoderate eating of meat. Solomon "got onto this" for he said—"be ye not among riotous eaters of flesh". And he also warns against gluttony over and over.

NEW OPPORTUNITY FOR SERVICE SEEN

Message to Community War Labor Board Says End of Fighting Imposes Important Duties.

NEW OBLIGATION IS FACED

The Rushville community war labor board has received the following message from William B. Wilson, secretary of labor in the president's cabinet, pointing out the new responsibilities of the board since hostilities have ceased:

"I sincerely trust that no member of the Community Labor boards will fail to appreciate that the cessation of hostilities brings new opportunities for service, and imposes new and important duties. The country now faces an obligation to return to suitable employment those it induced to enter its service in the field and factory. The well being of the people for many years to come depends largely upon the manner in which that obligation will be fulfilled, as well as the indication of those principles of justice which animated us in the pursuits of war. Community war labor boards are best suited and equipped to help in the process of transition from war to peace. At no time have their services been more necessary. I confidently appeal to each member to continue serving until the last man from the army and war service has been placed in suitable employment. Much depends upon members of Community War Labor boards in the fulfillment of our task."

A MOTHER'S STRENGTH

Mother, whose hands rock the cradle, often needs more than ordinary food to help maintain the blood-quality and strength and to assure adequate nourishment to the child. It is as unwise for the mother, as it is dangerous to the child, to place dependence upon alcoholic stimulation, for strength is not found in alcohol.

SCOTT'S EMULSION

of purest cod liver oil, absolutely free from alcohol, is mother's true friend, in that it performs a two-fold duty. Scott's is tonic-nourishment, particularly fitted for the trying period of motherhood.

SCOTT'S EMULSION BUILDS UP STRENGTH.

THE BOLSHEVIKI!

Must We Fight Another War TO Save the World From Its Menace?

A shudder runs through the Western nations as they watch the millions of Central Europe plunge from autocracy toward anarchy, and publicists begin to ask if we must fight again—against the new foe.

"Must we save the world from anarchy" is on every lip and the fact that such questions as these are being asked everywhere is proof enough that "the war does not end when the enemy surrenders" according to *The New Republic*. On the other hand, we find the *Hartford Courant* convinced that the scientific socialism of Germany can never develop the disorder that was bound to accompany the Bolshevism inherited from the old Russian nihilism. And the *Boston Globe* reminds us that "whereas Russia was predominately illiterate, in Germany illiteracy is less than one per cent."

The leading article in THE LITERARY DIGEST this week deals with the greatest menace that threatens the conclusion of world peace—the Bolsheviki. Other news-features in this particularly interesting number of "The Digest" are:

Important News of Finance and Commerce

How "The Digest" Will Serve You in the Future

Just as THE LITERARY DIGEST has provided during the long years of war that have just ended the most authoritative and dependable of news articles from week to week, so now, in the wonderful period of reconstruction that lies before us, it will furnish the vital news upon all the great questions of the day in a similarly interesting and comprehensive way. It will cover fully the movements of our troops in Europe, the return of our armies to their native land, the arrangements for disbanding the various

units and restoring their members to civil life, the great readjustments that will become necessary in the worlds of finance, commerce, and industry, the rehabilitation of the wounded and crippled, the means by which they may be made self-supporting, etc. All these and many more allied topics in the social, political, and economic fields, will be treated without bias and with the simple aim of presenting the facts for your consideration and judgment. Study them each week in The Digest.

LAXATIVE for Aged People

THE BANE of old age is constipation. The bowels become weak and unable to perform their functions without aid. For this purpose only the mildest and gentlest laxative should be used. The use of harsh cathartics aggravates the trouble and makes the constipation worse. Chamberlain's Tablets are a favorite with people of middle age and older on account of their gentle action.

Chamberlain's Tablets

PUBLIC SALE

We, the undersigned, having dissolved partnership, will sell at public auction at the Coltrane farm, one and one-half miles west of Columbia, and four miles east of Orange, on

MONDAY, NOV. 25, 1918

DEC. 2-6 IS WEEK FOR CONSERVATION

Patriotic Agencies Asked by Council of Defense to Help Make Event a Success

NEW CONSERVATION PROGRAM

Intended to Support Necessities Disclosed by Present Survey of Food Conditions

County Councils of Defense, the Four Minute men and other patriotic agencies have been asked by the Indiana State Council of Defense to assist in making Conservation Week for World Relief, December 2-6, a complete success. The United States Food administration at that time will promulgate the new conservation program, which is intended to support the necessities as they are disclosed by the present survey of food conditions abroad, by Herbert Hoover, federal food administrator. "Many parts of Europe are threatened by famine and disorder on account of the lack of food and it is most urgent that every household in America should rally to this new call," says Bulletin No. 217, issued by the state council.

"We therefore request," the bulletin continues, "that you place yourselves in touch with your county food administrator, who will have the details of the plans for Conservation week, and lend him the full assistance of the council of defense organizations."

In anticipation of the work to be done in the state, the food administrators and conservation workers will meet in conference in Indianapolis Thursday November 21, and hear an official message from G. Harold Powell, acting federal food administrator, in the absence of Mr. Hoover.

Every Four Weeks Thereafter.

AVOID THE OPERATING TABLE

DR. OSBORN'S IMPROVED METHODS ARE EXCLUSIVELY HIS OWN, AND THERE IS NO GUESSWORK ABOUT IT. THEY HAVE PROVEN SUCCESSFUL.

In the treatment and cure "Without the use of the knife of Piles, Fistula, Fissure, Prostatic Enlargement, Rupture, Chronic Diseases of the Kidneys, Bladder, Obstruction, Rheumatism, Stomach, Bowels and all other curable Chronic Diseases.

No Matter How Obstinate or How Contracted — Cured

When I say I can cure you, you can depend upon it, for I know from the successful results in thousands of similar cases to yours, just what I can accomplish. Grateful patients treated by me are constantly recommending others, and this is why I possess such a large practice.

Men! Women! If you do less than you should, on your farm, at your desk, or in your shop, you are in some way weak. If you can't accomplish all that you expect or hope for, you are the silent sufferer from some hidden disease that affects one or more of the important nerve centers of the body. These neglected or unknown conditions, are usually diseases of the Pelvic System, which reflexly act upon the organs of Elimination, digestion and the nervous system, which in turn has its influence on the brain. I have made a special study of the Nervous System and have perfected methods that will cure where ordinary methods have failed. I will give you a searching and thorough examination FREE, thus determining the exact location of your trouble.

BEAR IN MIND that I have in Indianapolis one of the most modern and thoroughly equipped offices in the state with a Specialist in charge who is ripe in years of experience, rich and mature in learning in his chosen work. That neither one of us will promise you more than we can give, and should you be unable to see me on date specified above, you can write, or better still, call at my office, 314 Traction Terminal Building, Indianapolis.

I do not use the knife, neither do I do any cutting.

Tomorrow May Never Come — Get In Touch With Me Today.

INDUSTRIAL FARM FOR FEEBLE MINDED

State Board of Charities Will Recommend to Next Legislature That Be Established.

FT. WAYNE SCHOOL CROWDED

Indianapolis, Ind., Nov. 22.—Plans are being made by the state board of charities to recommend to the next session of the legislature the establishment of an industrial farm colony for the feeble minded. The schools for feeble minded youths at Ft. Wayne is crowded now, only 75 patients being admitted last year. There are nearly 1,500 inmates.

According to Amos Butler, secretary of the state board of charities, the law passed by the last legislature providing that non-resident feeble-minded, insane and epileptics be returned to their resident state, have saved Indiana about \$20,000.

Fifty-two such cases were reported the first nine months of this year. All of these have been disposed of but eight and final action is now pending in their cases.

ALONG THE FOOD LINE

The shortage of dried fruit in America is a hint to housewives to gather up all the left-overs and store them, either dried or canned. Winter pears, apples, grapes, pumpkins, carrots all furnish material for jam.

Apples are 90 per cent juice, and practically all the food value is in the juice. So store up the windfalls in the form of sweet cider, boiled cider, vinegar, butter, jelly, syrup, pie filling and sauce. All of these can be made and kept without sugar. Reduce five gallons to one for syrup seven to one for jelly.

Dry a supply of green peppers, sweet red peppers, parsley sage, mint and thyme for seasoning stews, scallops, salads, sausage and cottage cheese.

Set your traps and clear orchard and garden of rabbits. If you catch an over-supply, can them or use the meat in rabbit-pork sausage.

TIME OF CONFERENCE UP TO LLOYD-GEORGE

If English Premier Can Leave England Before Election, Peace Conference Will Be Next Month

WILSON MAY GO OVER TWICE

(By United Press.)
Washington, Nov. 22.—Convening of peace conference in France is now virtually up to Lloyd-George. The British elections are to be held Dec. 28. If the premier feels he can leave England before that date, the peace conference should get under way by middle of December, it is said here. If he can not leave however until after the elections, the conference probably will not begin until the end of December or the first of January.

Pres. Wilson will make his arrangements accordingly. The president expects to visit England and Italy, as well as France, his friends says. It is now generally believed that the president will make two trips to Europe during the session, the first for the opening and the second when the peace agreement is ready for the final signature.

THE QUICK WAY TO STOP A COUGH

When you have a severe, stubborn cough or cold, you need the best possible medicine you can get. Why not, therefore get one which is guaranteed the most soothing and satisfactory remedy ever used, or get your money back? Druggists everywhere are authorized to refund money if SCHIFFMANN'S EXPECTORANT is not found the very best ever used for Coughs, Colds, Bronchitis, Croup, Whooping Cough or Hoarseness. When mixed at home with honey or sugar syrup, 50 cents worth makes 64 teaspoonsful. Positively contains no chloroform, opium, morphine or any other narcotic, and is unlike any other cough medicine. It is so pleasant to take that children are fond of it. In case druggists should not have it order direct of R. J. Schiffmann, St. Paul, Minn.

EXPRESS RATES BOOSTED

Washington, Nov. 21.—Rates on all express lines after federal control were raised today by Director General McAdoo. The increases, which ranged from ten cents to seventeen cents per one hundred pounds, are expected to produce approximately \$24,000,000 additional revenue.

AFTER THE GRIPPE

To regain your health and strength again you must take a tonic and for this purpose the Medical Profession is prescribing Iron, Nux Vomica, Gentian, Capsicum and Zinc Phosphate in some form. Many preparations containing Iron are very constipating, but this is overcome by the addition of Aloin in Chase's Blood and Nerve Tablets, which contain all of the above tonic remedies.

In these Tablets you have all that is good in tonic medicines without any harmful effects. They are safe and sure health builders and at this particular time it would be hard to over estimate their value.

Weigh yourself, before taking them and see what you gain in weight and strength.

Nearly all druggists sell Chase's Blood and Nerve Tablets at sixty cents a box. Special ninety cents.—Adv.

CHEVROLET For Economical Transportation

TO ALL TO WHOM THESE PRESENTS SHALL COME, GREETINGS:

I, William A. Roach, Secretary of State of Indiana, hereby certify that the RALEIGH GAS, OIL AND WATER COMPANY has this day caused to be filed in the office of the Secretary of State of the State of Indiana, the properly signed and attested consents, statements and papers required by Section One of an act of the General Assembly of the State of Indiana, entitled, "An act prescribing the method and procedure for the voluntary dissolution of private corporations and voluntary associations, and declaring an emergency," approved March 14, 1913.

And I further certify that said written consents, statements and papers as filed as aforesaid show that said company and the officers thereof have complied with the provisions of said Section One of said act, and that said corporation is now in process of dissolution.

In witness whereof, I have hereunto set my hand and affixed the seal of the State of Indiana at the City of Indianapolis this 12th day of November, A. D. 1918.

WILLIAM A. ROACH,
Secretary of State.

EIGHT HOOSIERS IN HUN PRISON CAMPS

According to Red Cross Reports Eight Indiana Soldiers Should be Released

OSG000 MAN AMONG THEM

(By United Press.)

Indianapolis, Ind., Nov. 22.—According to Red Cross reports there are eight Indiana soldiers in German prison camps who should be released. These are:

Hoyt Decker, Vincennes; Herschel McKee, Indianapolis; Paul Baer, Ft. Wayne; Guy B. Wiser, Mishawaka; Thomas C. Coolman, Thomson; William A. Mooney, Columbus; C. H. Doane, Terre Haute; Harvey Phipps, Aurora, B. A. Fellers, Mishawaka; Harry Scott, Florence; Debert Stephenson, Bedford, Frank Wilmer, Westport, Dallis Kelly, Osgood.

S. M. Keller, South Whitley; Frank C. Hickman, Loogootee; John L. Dozier, Indianapolis; Jessie Hargrove, Mt. Vernon; Russell C. Harrison, Lafayette; Clarence Endley, Centerville; Alex Chinskey, Michigan City; William O. Weavner, Solsbury; John Kool, Bicknell; Orville Thornton, Jasonville; H. E. Schutte, Farmers Retreat; William Tamm, Jasonville; Jesse Templeton, Linton; Clyde Durkill, Farmland; Charles Kaiser, Aurora, Hiram Scott, Grass Creek.

WAR WORK

American women nurses are installed eight miles in the rear of the fighting lines "over there." Right here at home many women should learn nursing to take care of the sick or, in emergencies, the wounded. You can learn a great deal by obtaining the "Medical Advisor," a book of 1,000 pages, bound in cloth containing chapters on First Aid, Bandaging, Anatomy, Hygiene, Sex Problems, Mother and Baby. 200 prescriptions for acute and chronic diseases; profusely illustrated by wood cuts and colored plates. Ask your druggist or send 50c. to Publisher, 663 Main Street, Buffalo, N. Y.

If a woman is nervous or has dizzy spells, suffers from awful pains at regular or irregular intervals she should turn to a tonic made up of herbs, and without alcohol, which makes weak women strong and sick women well. It is Dr. Pierce's Favorite Prescription. Then, for the liver and bowels nothing is so good as Dr. Pierce's Pleasant Pellets.

Reports, Ind.—"Eighteen years ago I first became acquainted with Dr. Pierce's Favorite Prescription. It was during expectancy and I was very frail and delicate. But the Favorite Prescription strengthened me and I had comparatively no suffering. My baby was a strong, healthy girl and has always been fine and healthy. For the expectant mother I think there is nothing so equal 'Favorite Prescription.'"

"The 'Pleasant Pellets' I keep in my medicine closet for immediate use and feel that I couldn't keep house without them."

—Mrs. Minnie McGregor, 612 Clement St.

A DEAD STOMACH

Of What Use Is It?

Thousands, yes hundreds of thousands of people throughout America are taking the slow death treatment daily.

They are murdering their own stomach, the best friend they have, and in their sublime ignorance they think they are putting aside the laws of nature.

This is no sensational statement; it is a startling fact, the truth of which any honorable physician will not deny.

These thousands of people are swallowing daily huge quantities of pepsin and other strong digesters, made especially to digest the food in the stomach without any aid at all from the digestive membrane of the stomach.

Mi-o-na stomach tablets relieve distressed stomach in five minutes; they do more. Taken regularly for a few weeks they build up the run down stomach and make it strong enough to digest its own food. Then indigestion, belching, sour stomach and headache will go.

Mi-o-na stomach tablets are sold by druggists everywhere and by Johnson's Drug Store who guarantee them.—Adv.

BIG EATERS GET KIDNEY TROUBLE

Take a glass of Salts before breakfast if your Back hurts or Bladder bothers you.

The American men and women must guard constantly against Kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out, they weaken from overwork, become sluggish; the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys; to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder disorders.

Jad Salts is inexpensive; cannot injure, makes a delightful effervescent lithia-water beverage, and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time.

Is Your Blood Poor? If it is, You Need Vinol

Anaemic, run-down, nervous, devitalized conditions result from poor or thin blood. A glance at the formula of Vinol, printed on the label, will show that it contains the very ingredients necessary to make good blood. It soon creates a healthy appetite, improves digestion, and helps you to get full benefit from your daily food, and builds you up.

Drewsville, N. H. "My daughter was anaemic, had poor blood and suffered from indigestion and bilious attacks. As Vinol helped my son, I gave it to my daughter—she soon improved in health, and it has built her up and restored her health."—Mrs. N. Burnell.

Bradford, Pa. "I have used Vinol for improved blood. I was broken out with a rash and run down so it was hard for me to keep about my work. Other medicines did no good, but Vinol enriched my blood and improved my condition very rapidly."—Rose Lasky.

For all run-down, nervous, anaemic conditions, weak women, overworked men, feeble old people and delicate children, there is no remedy like Vinol.

TO ANTICIPATE FIRST PAYMENT

Treasury Provides Method for Meeting March 15 Payment of Income and Profit Taxes.

THIRD DUE AT THAT TIME

Anticipation Certificates Drawing 41 Percent Issued as of Nov. 7 and Maturing Mar. 15.

Federal income and profits taxes for 1919 under the new revenue act will amount to \$6,000,000,000. The first third of these taxes will be due and payable March 15, 1919. These taxes must be paid in cash. If no advance preparations were made to provide means of payment, the strain on the banking and business credits of the country, might lead to embarrassing results.

To avoid this the U. S. treasury has provided a method whereby all taxpayers may supply themselves in advance with a medium of meeting the March 15 installment of the federal revenue payment, without resort to credit at that time.

This is done by offering 41 percent tax anticipation certificates, a direct obligation of the U. S. treasury, dated Nov. 7 and maturing March 15.

The banks and all private investors having funds in hand at this moment may employ them with absolute freedom from risk or commercial uncertainty by buying these government tax anticipations series "T". By doing so cash which might otherwise be idle, "waiting for conditions to settle down", may be put to work for the government. Current funds are needed to carry on during the armistice. There is no way to obtain this money except by "borrowing against the taxes" to be collected in 1919. This is done by the issue of these tax anticipations.

When March 15 rolls around the holder of series "T" need not borrow money at his bank to pay his federal taxes. He has on hand maturing certificates which the government will accept at their face. Best of all the tax payer has been receiving treasury checks for interest during the interim between purchase and maturity.

The treasury reserves the right to allot all subscriptions for series "T" or to reduce subscriptions. No fixed amount is prescribed for the issue. Payments must be made either in Chicago Exchange or in unexpired certificates of the issue of August 20, 1918.

To avoid possible high interest rates next March when taxes fall due, all corporations and individuals liable for federal tax payments should purchase these tax anticipation certificates. It is a patriotic duty and it is good business.

Decide NOW what you SHOULD GIVE to the United War Work Fund.

BOLSHEVIKI THROWN BACK

Allies Counter-Attack. Causing Heavy Losses to Russians.

(By United Press.)
London, Nov. 22.—Heavy fighting in the Dvina region between Bolshevik and allied forces Monday and Tuesday, is reported by the war office. The Bolsheviks attacked the allies Monday, penetrating several villages. American and British infantry then counter-attacked, throwing the enemy back with heavy losses.

The fighting was resumed Tuesday, the Bolsheviks being defeated with great casualties.

PLAN TO SAVE 20 TO 30 PERCENT OF COAL

With the wintry weather coming on, the Bureau of Mines, Department of the Interior, offers a novel scheme to householders using hot-air furnaces to not only obtain greater heat from their furnaces, but also to save from 20 to 30 percent of their coal.

The bureau suggests that it is extremely wasteful of coal and also comfort to follow the almost universal plan in hot-air furnaces of having the cold-air duct connected with the outside of the house during severe weather. It is of the opinion that when the outside air is down to nearly zero, it will be profitable to close the cold-air duct, shutting off the air from the outside and substituting another air duct from the inside of the house where the air has been somewhat heated.

With most hot-air layouts it is possible, by a simple and inexpensive change, to effect a saving of 20 to 30 percent in the coal required to heat the building in severe weather, and the building can be kept far more comfortable. In fact, it is easy to change hot-air house heating from a system markedly inferior to steam or hot-water apparatus to a system that compares with them most favorably in nearly all respects.

The plan here recommended is merely the addition of an auxiliary cold-air duct by which the air supply to the furnace may be taken from inside the house, instead of from outdoors, during very cold or windy weather.

There is, of course, nothing novel in this proposal. Hot-air furnaces have been installed on this plan for many years; and the only surprising feature is that all furnaces are not installed in this way, instead of an occasional one. The saving in coal made possible by such an arrangement is obvious when one considers the difference between heating air taken from outdoors, which may be at zero temperature or below, and air taken from inside the house entering the furnace at a temperature averaging perhaps 60° F.

The saving of fuel is especially great, of course, where a hot-air furnace is designed and installed, as all hot-air furnaces should be, to deliver a large volume of warm air instead of a small volume of very highly heated air. It is, in fact, a material advantage of the auxiliary cold-air inlet from inside the house that it enables a furnace to be installed which will deliver warm air instead of hot air—a thing which is difficult or impossible when the entire air supply is taken from outdoors.

One might suppose that all hot-air furnaces would be built according to the plan here recommended; but for the ordinary dwelling the heating apparatus usually receives only such thought and attention as the plumber or builder cares to give it. It is a question of putting in equipment that will cost the least and sell the best, rather than what will give the best results in operation.

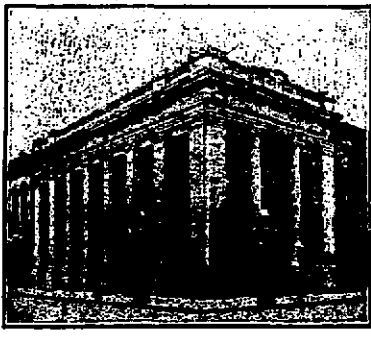

In these times, however, when economy at every point is demanded as a patriotic duty, it is surely the duty and the opportunity of engineers to undertake leadership in this reform. No argument whatever is necessary to convince engineers of the practical advantages of the change here urged.

The bureau has issued on this subject Technical Paper 208, "How to Improve the Hot-Air Furnace," a copy of which may be obtained by addressing the Director of the Bureau of Mines, Washington D. C.

Habits

are not formed in a day. An act repeated time after time and continued day after day becomes established as a habit of life. Spasmodic or occasional saving can never produce the splendid results of consistent and persistent habits of laying something aside each week or each month for the future.
